Items such as meat and poultry products, food packages and dietary supplements are subject to stringent federal regulations and the costs of compliance are often significant. The Nutritional Labeling and Education Act of 1990 (NLEA) imposed new mandates for labeling of many packaged food products. Still others became subject to a voluntary nutrition labeling program. Following that, lead USDA has imposed parallel labeling requirements. **FDA and USDA Nutrition Labeling Guide** Decision Diagrams, Checklists and Regulations provides hands on information and guidelines for understanding the latest federal nutrition labeling requirements.
