Italy is left out of most contemporary comparative studies of political systems This omission can be due neither to any intrinsic unimportance of Italy in Europe nor to the absence of parallel similarities and differences the prerequisites of comparative explanation between the Italian and other Western political systems It may be due to the paucity of case studies of Italian politics upon which comparisons would have to be based Professor Bucci's book will contribute toward overcoming this scarcity Not only is Italy under represented in comparative studies of post war European politics but there is also a shortage of monographs dealing with particular aspects of Italian politics since the founding of the Republic especially in English I hope that Dr Bucci's work which is based exclusively upon original Italian sources signals the beginning of exploration more systematic than hitherto of the goldmine for case studies which post war Italian politics presents to political scientists History Lubomyr Roman Wynar, 1963 Origins of a new economic union (7th-12th centuries). Preliminary results of the nEU-Med project: October 2015-March 2017 Giovanna Bianchi, Richard Hodges, 2018-10-11 The nEU Med project is part of the Horizon 2020 programme in the ERC Advanced project category It began in October 2015 and will be concluded in October 2020 The University of Siena is the host institution of the project The project is focussed upon two Tuscan riverine corridors leading from the Gulf of Follonica in the Tyrrhenian Sea to the Colline Metallifere It aims to document and analyze the form and timeframe of economic growth in this part of the Mediterranean which took place between the 7th and the 12thc Central to this is an understanding of the processes of change in human settlements in the natural and farming landscapes in relation to the exploitation of resources and in the implementation of differing political strategies This volume brings together the research presented at the first nEU Med workshop held in Siena on 11-12 April 2017 The aim of the workshop was to draw up an initial survey of research and related work on the project one and a half years after its inception The project is composed of several research units Each unit covers an aspect of the interdisciplinary research underpinning the nEU Med project each with their own methodology For this first volume of results it was decided not to give an account of all the work carried out within all the units but to select those lines of investigation which at the end of the first year and a half have made it possible to articulate and develop an interdisciplinary research strategy **Fascist Italy and the League of Nations, 1922-1935** Elisabetta Tollardo, 2016-10-27 This book analyses the relationship between

Fascist Italy and the League of Nations in the interwar years By uncovering the traces of those Italians working in the organization this volume investigates Fascist Italy's membership of the League and explores the dynamics between nationalism and internationalism in Geneva The relationship between Fascist Italy and the League of Nations was contradictory shifting from active collaboration to open disagreement Previous literature has not reflected this oscillation in policy focusing disproportionately on the problems Italy caused for the League such as the Ethiopian crisis Yet Fascist Italy remained in the League for more than fifteen years and was the third largest power within the institution How did a Fascist dictatorship fit into an organization espousing principles of liberal internationalism By using archival sources from four countries Elisabetta Tollardo shows that Fascist Italy was much more concerned with and involved in the League than currently believed
