(Contemporary World Politics) (Chapter – 2) (Freedom)

(Class – XI)

The government is the part of society, hence it is assigned with the task to put limitation on the freedom of the citizens. Constraints on freedom are also a result of social inequality. Social constraints can include formal practices such as government regulations or informal norms including cultural preferences. Recently, material related to social constraints has been implemented in the course to strengthen the incorporation of social constraints into the design and implementation process.

Yes, Constraints are necessary for enjoying the freedom:

- Constraints are necessary to develop respect for the views of others.
- It is necessary to create an equal society.
- Absence of constraints would lead to imposition of beliefs on others and give rise to conflicts. In order to show that freedom is measurable, one must show that the different kinds of constraint on freedom (physical impossibility, threats, difficulty) can be combined so as to provide overall freedom judgments.

Example: In Indian constitution, right to practice religious affair is a Fundamental Right and government would not intervene into, but if the practice restricts other people from following their beliefs then the government would interfere into it.

Question: 4

What is the role of the state in upholding freedom of its citizens?

Answer 4:

The state upholds the freedom of its citizens by providing certain rights to them. The state maintains 'justifiable constraints' or reasonable restrictions on people so that they cannot harm others and their freedom. It provides positive liberty to its citizens to enable them to expand their ability and talent.

- Freedom of citizens of the state decides the scope of freedom, i.e. freedom of citizens depends on the will of rulers in a monarchy, democratic state grants fundamental right to the citizens.
- A state is controlled by the government because, whatever the government does, it affects the freedom of citizens and if any conflict becomes violent, it hinders the day-to-day life of state.
- If state is unable to manage army and police, it disrupts the law and order of the country.
- A welfare state always initiates to protect the freedom of backward people along with all citizens.

Question: 5

What is meant by freedom of expression? What in your view would be a reasonable restriction on this freedom? Give examples.

Answer 5:

Freedom of expression means the freedom to express one's views through speech, writing, etc. It is considered to belong to the minimum area of 'non-interference', that is, negative liberty. According to the provisions of the Indian Constitution, this is a fundamental right.

But sometimes society has to bear some hassles that are caused by freedom of speech to protect it from people who want to restrict it. Society cannot restrict people from expressing themselves freely whether it agrees with their views or not.

A reasonable restriction of freedom of expression is one that allows society to function smoothly and curbs interference in privacy. These restrictions are reasonable as they are essential to run the society smoothly. Reasonable restriction on this freedom thus:

- Should be made such that it does not hinder functioning of society.
- These restrictions are necessary and reasonable as they are necessary for the society to run.
