Chiswick,2014-06-04 At the core of Judaism stands a body of traditions that have remained consistent over millennia Yet the practice of these rituals has varied widely across historical and cultural contexts In Judaism in Transition Carmel U Chiswick draws on her Jewish upbringing her journey as a Jewish parent and her perspective as an economist to consider how incentives affect the ways that mainstream American Jews have navigated and continue to manage the conflicting demands of everyday life and religious observance Arguing that economics is a blind spot in our understanding of religion Chiswick blends her personal experiences with economic analysis to illustrate the cost of Jewish participation financially and more importantly in terms of time and effort The history of American Jews is almost always told as a success story in the

secular world Chiswick recasts this story as one of innovation in order to maintain a distinctive Jewish culture while keeping pace with the steady march of American life She shows how tradeoffs often made on an individual and deeply personal level produce the brand of Judaism which predominates in America today Along the way Chiswick explores salient and controversial topics from intermarriage to immigration and from egalitarianism to connections with Israel At once a portrait of American Jewish culture and a work that outlines how economic decisions affect religion Judaism in Transition shows how changes in our economic environment will affect the Jewish community for decades to come [The Late Starters Orchestra](#) Ari L. Holy Ignorance Roy Olivier, 2014-01-16 Olivier Roy world renowned authority on Islam and politics finds in the modern disconnection between faith communities and socio cultural identities a fertile space for fundamentalism to grow Instead of freeing the world from religion secularization has encouraged a kind of holy ignorance to take root an anti intellectualism that promises immediate emotional access to the sacred and positions itself in direct opposition to contemporary pagan culture The secularization of society was supposed to free people from religion yet individuals are converting en masse to fundamentalist faiths such as Protestant evangelicalism Islamic Salafism and Haredi Judaism These religions either reconnect adherents to their culture through casual referents like halal fast food or maintain their momentum through purification rituals such as speaking in tongues a practice that allows believers to utter a language that is entirely their own Instead of a return to traditional religious worship we are now witnessing the individualisation of

faith and the disassociation of faith communities from ethnic and national identities Roy explores the options now available to powers that hope to integrate or control these groups and whether marginalisation or homogenisation will further divide believers from their culture
