**Valkyrie's War** Dietmar Arthur Wehr, 2024-11-06 Valkyrie's War is a short military SF novel set in the Synchronicity War Retro War universe. It's an action-packed story where the Artificial Intelligence Valkyrie and her AI soul mate Casanova discover that all of humanity is in deadly danger and the two of them are humankind's only hope. But this time they're not facing a biological threat. This time the enemy is another AI that is far more capable than they are. If you enjoyed The Synchronicity War's clash of space fleets and time travel, then you'll enjoy this stand-alone sequel to The Retro War.

**The Thunder of War** Dietmar Arthur Wehr, 2017-04-25 This is the first book in the Thunder in the Heavens series. Both books in the series have been published and an audiobook version containing both books is available under the title The Complete Thunder Series. The Tyrell are a race that loves to fight and they're very good at it. The harder they fight, the better they like it. Whenever they discover another intelligent race, they force them into combat whether they want it or not. When humans are warned of an inevitable confrontation with the Tyrell, they attempt to form a multi-species Alliance, but the challenges are great and they know it's only a matter of time before a Tyrell fleet of massive ships will arrive in Earth orbit. Cate Harrow and Gort Eagleton are two Aerospace Force officers with the kind of strategic and tactical skills that the Alliance needs to win this war, but before they can even begin to defeat the Tyrell, they must survive the incompetent leadership that threatens complete disaster. Defeating the Tyrell will be far more difficult than the Alliance initially believes unless they can discover their one weakness. This action-packed series has lots of space battles and political intrigues, as well as personal triumphs and tragedies.

Excerpt: Flight Ops to Skydiver: You and your squadron have the green light, Commander. Good luck. Thanks. Ops Skydiver to Squadron: We have a green light. Sound off when you've undocked in sequence order. Here we go. She turned and nodded to her co-pilot who would maneuver the corvette out the half-kilometer-wide maw of the carrier Ranger while she monitored the rest of the squadron. As Skydiver gently pulled away from the docking bay, then past the baffles and moved towards the opening, Harrow switched one of her displays to the rear external view using computer enhancement to compensate for the low level of light inside the main hangar space. Each corvette in the squadron was undocking and maneuvering in a specified sequence in order to avoid collisions. Skydiver is clear of Ranger, said the co-pilot. As the ship began to accelerate, Harrow watched the carrier start to recede into the distance. Just as she began to shift her gaze, she saw a streak of light hit Ranger from below, penetrate up through the interior of the huge hangar, and come out the top of the ship. FLIGHT OPS: WHAT THE HELL? shouted Harrow. BEEN HIT? RANGER'S BEEN HIT. Harrow recognized the voice of the Flight Operations Duty Officer. OH GOD! BISMARCK REPORTS BEING HIT TOO. Harrow thought fast. The Tyrell had obviously detected the four carriers and were firing their long-range, faster-than-light kinetic energy projectiles from below. The mission was clearly compromised, and to her way of thinking, getting the carriers to a safe distance was now not only their top priority, it was their only priority. SL to Flag, said Harrow quickly. We're kinda busy right now. Commander Harrow didn't know who

was replying but she did know it wasn't Vice Admiral LeClair and that's who she wanted to talk to. You tell the Admiral that he needs to order his carriers to jump RIGHT NOW. Goddamnit. We're sitting ducks here. Without waiting for a reply, she turned to the co-pilot. How many of our ships have cleared the Ranger? They're all out. Do we try to dock again? God no. No time for that. We'll have to catch up with her at the rally point if our carriers bug out in time. She looked at the display that was still showing a now much smaller Ranger. Come on TFL. Give the order. Flight Ops to Squadron Ranger is heading for the rally point now. Meet us there. The voice cut off at the same instant as the distant carrier vanished from view. Ranger's jumped away. yelled the co-pilot. Bismark Sea is gone too.      *The Retro War* Dietmar Arthur Wehr, 2014-10-26 The Synchronicity War is over and the Insectoid beachheads in our spiral arm have been destroyed but the aftermath of the war holds some nasty surprises for Humanity and its loyal AI allies. Somebody is messing with the human timeline. Is it the Friendlies, the Sogas, the Insectoids or a new race? This stand alone novel set in the same universe has new human and AI characters. Find out what happened to Valkyrie, Casanova, Iceman, Gunslinger and the other Rim AIs. The Retro War spans time and space in a galactic chess game with humans and their AIs as the pawns.      *Megabook of Military SF and Technothrillers* Dietmar Arthur Wehr, 2020-12-16 This megabook contains six complete novels where each one is the first novel in a series. In addition, there is also the first in a series of three linked short stories plus the first three chapters of six stand alone novels including two technothrillers. Links to all series and stand alone books can be found via the link to the author's website which is included in the megabook. All the material in the megabook has been written by Dietmar Arthur Wehr, a USA Today bestselling author.

**Thunder of Vengeance** Dietmar Arthur Wehr, 2017-09-03 The Thunder of Vengeance concludes the Thunder in the Heavens series. The war with the Tyrell has entered a lull as both sides ponder the results of the battle at Omega2. The Tyrell are now building their own carriers and humans are about to deploy their new stinger concept but the path to victory will not be easy for either side. Humans and their Alliance allies cannot afford another catastrophic battle and the Tyrell are only just beginning to realize what kind of opposition they are now facing. A series of battles will bring both sides together in one final massive battle that will decide the war. Can Cate Harrow and Gort Eagleton survive and avoid disaster? This ebook also contains the first novella in a new series, Tales of the High Avenging Angel. Excerpt: LeClair was just about to give the order to deploy the RD2s into their pre-jump positions when the tactical display double pinged and the icons representing Bismarck Sea and Valley Forge suddenly began flashing to denote damage of some kind. Before he could say anything, Waterloo's icon started flashing too. What the hell is happening? snarled LeClair. Admiral Waterloo has multiple hull breaches and the number is continuing to grow. LeClair recognized the voice of Waterloo's C.O. Valley Forge reports they're under attack. Admiral shouted the com technician. But from where? dammit yelled LeClair. We have to jump away. Admiral Waterloo's C.O.'s voice was on the ragged edge of panic. NO shouted CAG. The squadrons don't have a rally point. If we jump away now, they'll never find us again. And if we stay long enough to give them a rally point, we might not be able to jump away at all, said the C.O. The CAG

started to say something but LeClair cut him off We jump right now Fleet Commander to all units emergency jump NOW I repeat NOW     The Last Valkyrie Dietmar Arthur Wehr, 2016-12-03 When the Synthetic Intelligence Val Ky Ree wakes from her emergency shut down after a climatic battle she discovers thousands of years have passed and her creator race The Aesir have all gone The last of her kind she finds a new purpose in protecting the remaining few thousand humans from the hostile alien races called The Compact As humanity teeters on the edge of extinction one human male helps her to realize her destiny She takes on a new role as the last of the mythical Valkyries who have been given the power to decide who lives and who dies She will need all that power and her Warrior Code discipline when an old threat from the past re emerges a threat that this time she must face alone     *Excalibur's Quest* Dietmar Arthur Wehr, 2018-04-30 In Scimitar s Glory the alien Tong won the Battle for Earth and took control of the orbital space around the planet Humanity is now at their mercy but not all Space Force warships have been defeated Wolfe Koenig s light cruiser Excalibur is on a mission to acquire technology that just might enable the ragged remnants of the Fleet to snatch victory from the jaws of defeat if he can find an alien race with that technology if he can convince them to trade for it and if the technology can be exploited fast enough Excalibur s Quest is the story of that mission and the challenges both alien and human that Koenig faces This is the second book in the action packed military SF Swordships Odyssey series     *Return of the Star Raiders* Dietmar Arthur Wehr, 2019-11-14 fter the collapse of the interstellar Federation human civilization descended into a new Dark Age as planets cut off from Earth and each other reverted to a lower tech level After centuries of struggling to pull themselves back up by their bootstraps they face a new and terrible threat Raiders with faster than light ships and contra gravity tanks steal anything they want and kill anyone that gets in their way This military SF novel is the story of three generations of a family as they fight to protect their planet and loved ones from the forces of chaos Excerpt He quickly checked the distance to the mine site and compared that with the missile s own effective range and the X 12 s speed There was a slim chance of getting within firing range before the enemy ships got too high The throttles were already pushed as far forward as they could go but there was one more thing Strider could try in order to get more speed He initiated the afterburners which poured fuel directly into the hot engine exhaust causing secondary combustion and additional thrust The sudden surge in speed felt like someone had just kicked him in the back The enemy ships were starting to gain altitude faster now The distance between them and the X 12 was dropping faster too but there was no way to know for sure if it was dropping fast enough With seconds to go until the enemy ships got within missile range Strider armed the warhead opened the weapons bay and lowered the missile s launch platform The fuel exhaustion warning light lit up and he heard the accompanying warning alarm that he was almost out of fuel Landing without fuel was going to be a bitch but he couldn t worry about that now He had to focus on getting within firing range Without radar there was no way to know for sure but his estimated position relative to the mine site told him that the enemy ships were now within missile range He activated the Mark 3 warhead s guidance system which would begin radar scanning as

soon as the missile launched and pressed his thumb down on the red firing button      **Scimitar's Glory** Dietmar Arthur Wehr, 2018-01-30 Human explored space lies between two alien races that are either openly aggressive or covertly hostile 7th Fleet discovers that one of those races is moving to attack In a moment of panic the commanding admiral orders the fleet to attempt a risky jump through hyperspace They miss hitting their target star's gravity well and end up deep in unexplored space with a shockingly long trip home and not nearly enough food to last that long With war now raging in their home systems the officers of 7th Fleet must find a way to put aside their egos ambitions and fears in order to make it back and they know that not all of them will Scimitar's Glory is the first book in a new fast paced action packed military SF series Swordships Odyssey The second book Excalibur's Quest is also now available Excerpt With a long risky jump like this Dejanus would have expected Corregidor's astrogational AI to take at least ten minutes to aim the ship as precisely as possible to the distant star's center She was therefore surprised and somewhat alarmed when the flagship signaled to the rest of the fleet that they could start to match her trajectory after only half that time Goddammit what's the rush she said to Koenig who was the only other human on the Bridge There's no possible way the Jab fleet can catch us before we jump even if we take another hour to do it Why not take a few extra minutes to get the most accurate trajectory possible When it became clear that Koenig had nothing to say she continued Astro I want you to check the flagship's alignment with Alpha9 while we match vectors Let me know if you think the flagship's vector could be better That extra task delayed Excalibur's alignment and therefore she became the last ship in the fleet to signal her readiness for the jump Fleet Commander on Tac2 Commander said the com AI Dejanus switched channels to her Command Pod Excalibur Actual speaking said Dejanus in the formal form of address that ship COs normally didn't bother with What's taking your Astro so long to get aligned Commander Rostov didn't bother to hide his annoyance Just double checking the overall jump trajectory Admiral Dejanus thought she heard Rostov swear under his breath but it could have been her imagination You tell your Astro that if Excalibur isn't aligned in the next two minutes I'll order him replaced and transferred to a cargo hauler FC out The astro AI managed to get the ship aligned within the deadline to no one's surprise With all ships in the fleet now aligned perfectly with the flagship and jump velocity attained the order was given to enter hyperspace It was 131 3 hours later when both Koenig and Dejanus were on the Bridge again watching the jump chronometer countdown to the second when the ship should drop back down into normal space Koenig watched the countdown clock hit zero and then start counting up again After ten more seconds Dejanus began shaking her head She had a horrified expression on her face We've missed That bastard has killed us all      **Empire**

they are those who are ever learning and never able to come to a knowledge of the truth This book is designed to help the reader understand that the title of it TWO CHURCHES ONLY means just that It shows everything is in one system or the other even the Christian Churches It talks about God government those who are in government agencies churches etc and shows how everything is all tied together The main purpose of this book is to show the reader what Slavery and Freedom look like Once a reader finishes this book the reader will have great knowledge and will never be the same again They will begin to look at life much differently To read the book and understand the pearls contained therein will take the Spirit of the Holy Ghost bearing witness that it is true The author is only a man who loves God first and then loves his brother sister second He has no glamorous titles nor college degrees but he is just another everyday person who works for a living to feed his family The difference is that the author has fought the good fight And because of this God has granted him knowledge and allows him to see because he exercises his faith in God The information contained in this book are things the reader will not learn in church especially those 501 c 3 charter churches They would much rather be politically correct charismatic and avoid being controversial as if they are ashamed to learn the truth Anyway the reader needs to be the judge may God bless you who are proclaimed Christian and may he also bless you who are not that you will have a burning desire to take upon yourself the Name of Jesus Christ and receive his gospel     The Congressional globe ,1862
