Forensic Psychology and Neuropsychology for Criminal and Civil Cases

Harold V. Hall, Joseph Poirier, 2021-11-08 Today's increasingly sophisticated psychological and neuropsychological assessments allow for a greater understanding and improved evaluations in forensic psychology. By integrating discussions of modern psychological and neuropsychological tests with extant civil and criminal cases, *Forensic Psychology and Neuropsychology for Criminal and Civil Cases* Second Edition serves as a fully updated professional resource outlining modern behavioral science's impact on the legal system. This second edition synthesizes the theoretical, empirical, and clinical literature examining it through the lens of case application. The book is divided into three parts to look at foundational, legal, ethical, and applied issues: criminal forensic evaluations and civil forensic evaluations. Chapters new to this edition address substance abuse and intoxication, interviewing and interrogation, criminal profiling, faked amnesia and recall skills, postconcussive syndrome, PCS, post-traumatic stress disorder, PTSD, and trends and research directions. Clinicians, researchers, and psychologists practicing in any number of related fields will be able to address relevant questions from both criminal forensic and civil forensic perspectives. Key features: Presents the latest advances in methodology and technology to assist forensic professionals in assessment and case formulation in the search for ground truth in applied settings; Outlines base rates for forensic areas of concern, especially helpful in evaluation, report writing, and courtroom testimony as an expert witness; Addresses complex criminal issues such as competency to stand trial, criminal responsibility, mitigating defenses, and violence risk. *Forensic Psychology and Neuropsychology for Criminal and Civil Cases* Second Edition is an invaluable resource to clinicians, experts, witnesses, and legal professionals; a helpful adjunct for mental health experts to formulate sound, direct, and cross-examination strategies and eliciting suggestions for forensically related treatment and intervention. *Creating and Sustaining Effective K-12 School Partnerships* Ahmad R. Washington, Ramon B. Goings, Malik S. Henfield, 2020-03-01

Although teachers, school counselors, and administrators are all situated within educational settings tasked with supporting students' educational development, rarely do these professionals have sufficient opportunities to learn from and collaborate with one another before entering these schools. Unfortunately, many of these professionals are unaware of the primary and secondary responsibilities their peers and colleagues assume. What's worse, this lack of insight potentially compromises the extent to which educational leaders can forge effective partnerships that benefit students from the most alienated, disenfranchised, and marginalized communities, e.g., Black children in under-resourced schools. While the educational discourse has included recommendations for maximizing interactions between these educational professionals, the collective voices of teachers, school counselors, and administrators in regards to these issues has not been adequately examined. Thus, this book is a compilation of manuscripts and studies that explore partnerships and strategies educators and educational leaders use to produce positive socio-educational outcomes for Black students in various contexts. *Creating and Sustaining Effective K-12 School Partnerships: Firsthand Accounts of Promising Practices* is unique because it illuminates examples of effective school-community partnerships that foster positive student outcomes. *Creating and Sustaining Effective K-12 School*

Partnerships Firsthand Accounts of Promising Practices is intended as a practical text for committed educational leaders at different professional points e g practicing teachers pre service school counselors and teachers who are eager to transform the current educational trajectory of Black children through interventions that show promise
