Resources in education ,1983-08 Developing, Delivering, and Sustaining School Counseling Practices Through a Culturally Affirming Lens Brant-Rajahn, Sarah N.,Gibson, Eva M.,Cook Sandifer, Mariama,2022-05-06 Systemic oppression continues to disenfranchise students at the intersections of race ethnicity gender identity sexual orientation immigrant status religion ableism and economic status Because of this school counselors are called to function as advocates and change agents but often find themselves underprepared to address these oppressive systems in schools It is vital that school counselors are provided resources that enable them to increase their preparedness and allow them to address oppressive practices within schools as well as work with diverse populations using culturally affirming and antiracist practices Developing Delivering and Sustaining School Counseling Practices Through a Culturally Affirming Lens informs culturally affirming and antiracist professional practice and advocacy work by school counselors It serves as a learning tool that better prepares school counselors to address the needs of marginalized students and work as effective change agents to disrupt systemic oppression in school settings Covering topics such as professional identity racial trauma and social justice this book serves as a dynamic resource for school counselor educators school counselors in training school counselors directors supervisors district leaders and administration researchers and academicians as they implement antiracist social justice and culturally affirming practices in school settings and academia Encouraging Learning James Nottingham,2013-05-29 I recommend this book to anyone wishing to help children learn In it you will find some lovely ideas for improving the way we encourage support and praise all young people Professor Carol Dweck author of *Mindset* Stanford University USA James has developed a rare skill for blending arresting anecdotes hard edged research and practical advice into a truly compelling narrative Professor Barry Hymer author of the *Gifted and Talented Pocket Book* Cumbria University UK Over the last 20 years James Nottingham has studied how children learn He has taught every age group in both primary and secondary schools helped deaf teenagers deal with anger and isolation and even done philosophy with three year olds In this inspiring humorous and practical book he shows what you can do to help children of all ages develop into confident thoughtful and independent learners Based around the acronym ASK this book explores attitudes skills and knowledge to learning what is required and how to develop these skills more effectively It shows how to encourage independent thinking and a spirit of inquiry in your children Highlights include the dangers of calling our children clever bright and gifted the best ways to teach wisdom how to help children excel in exams why curiosity did not kill the cat With a foreword written by John Hattie Encouraging Learning draws on research from some of the most respected experts on thinking and learning to identify the best ways to help children learn more effectively efficiently and co operatively For everyone living or working with children particularly teachers parents carers and youth workers this book shows you some of the best ways to enhance children s learning including how to question praise and encourage more effectively **Making Black Girls Count in Math Education** Nicole M. Joseph,2022-08-16

Making Black Girls Count in Math Education explores the experiences of Black girls and women in mathematics from preschool to graduate school deftly probing race and gender inequity in STEM fields Nicole M Joseph investigates factors that contribute to the glaring underrepresentation of Black female students in the mathematics pipeline Joseph s unflinching account calls attention to educational structures and practices that contribute to race and gender based stratification in science technology engineering and mathematics disciplines The author also disentangles a complex network of historical and sociopolitical elements that influence the perception and experiences of Black girls and women both inside and outside of mathematics education In her clear eyed assessment of the intersectional difficulties facing this marginalized group Joseph offers a critical view of the existing mathematics education research practice and policies that have neglected Black girls and women confronts the problematic history of mathematics education policy and considers imbalances in the current teacher workforce in US mathematics programs She then provides practical actionable suggestions for reform Joseph invites students families and educators as well as researchers policy makers and other relevant stakeholders to disrupt systems structures and ideologies She calls for an end to racism and sexism in many areas of mathematics education including learning environments curriculum design and implementation and testing and assessments An essential read for anyone concerned about supporting the mathematical learning and development of Black girls and women this work advocates for coalition building so that greater more equitable opportunities for learning and engagement may be offered to Black female students
