TO DISASSEMBLE MAGAZINE: Withdraw magazine from pistol and remove all cartridges. (Check chamber to be certain no cartridge remains in it.) Hold magazine upside down in left hand so that hole in Block (A607) is accessible. With right hand, insert drift punch in hole and depress Retaining Plunger (A628) approximately 1/8". Slide the Block forward slowly BEING VERY CAREFUL TO KEEP PLUNGER AND SPRING (A610) UNDER CONTROL. If not contained, these parts will fly out with considerable force. Therefore keep bottom end of the magazine pointed away from persons and objects. With Block fully removed, Plunger and Spring should be slowly withdrawn. Now holding magazine that is left hand, align Follower Button (A625-62) with circular opening near lower end of magazine body and lift out Button. Follower (A629) can then be removed. Assemble in reverse order, being careful to contain Spring and Plunger as Button is slid and locked into place. After assembly has been completed, see Follower 50 amount it has free movement.

NOTE: If no price appears in the "Stainless" column, the part is available in blind steel only and is used on all models. Likewise, if no price appears in the "Blind" column, the part is available in stainless steel only and is used on all models. A few components, as example grip panels, are the same for blind and stainless models.

We believe that Americans have a right to purchase and use firearms for lawful purposes. The private ownership of firearms in America is traditional, but that ownership imposes the responsibility on the gun owner to use his firearms in a way which will ensure his own safety and that of others. When firearms are used in a safe and responsible manner, there are a great source of pleasure and satisfaction, and represent a fundamental part of our personal liberty.

Firearms do not cause accidents! Firearms accidents are almost always found to have been the result of carelessness, or ignorance on the part of the shooter of the basic rules of safe gun handling.

The following rules must be observed by gun users at all times. Safe gun handling is not just desirable, it is absolutely essential to the continuation of gun ownership and sport shooting as we know it today.

1. LEARN THE MECHANICAL AND HANDLING CHARACTERISTICS OF THE FIREARM YOU ARE USING. Not all firearms are the same. The method of carrying and handling firearms varies in accordance with the mechanical provisions for avoiding accidental discharge and the various proper procedures for loading and unloading. No person should handle any firearms without first having thoroughly familiarized himself with the particular type of firearm he is using, and with safe gun handling in general.
