The Feedback-Friendly Classroom Deborah McCallum, 2015-12-11 Learning is inherently social built on the daily interactions in the classroom What if feedback from teacher to student between students from student to teacher could be seen as essential to the ongoing process that defines the learning environment This groundbreaking book explores using feedback to help students become better learners examines the crucial use of verbal and nonverbal language to engage and guide students and shows strategies and activities to establish and promote effective feedback within the classroom and beyond

Early Childhood Education Petr G. Grotewell, Yanus R. Burton, 2008 This book focuses on early childhood education which spans the human life from birth to age 8 Infants and toddlers experience life more holistically than any other age group Social emotional cognitive language and physical lessons are not learned separately by very young children Adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention Although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver Both research in the field and early childhood educators view the parents as an integral part of the early childhood education process Early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent Other terms that is often used interchangeably with early childhood education are early childhood learning early care and early education Much of the first two years of life are spent in the creation of a child s first sense of self or the building of a first identity Because this is a crucial part of children s

makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy If care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience

Early Childhood Assessment Carol S. Lidz, 2002-12-16 A new guide to conducting more comprehensive and meaningful psychological assessments of young children Early Childhood Assessment presents a thorough step by step approach to the comprehensive psychological assessment of young children In addition to covering major psychological tests this invaluable resource includes specific guidelines and formats for interviewing parents and other caregivers observing children and caregiver child interaction conducting dynamic assessments writing reports and evaluating outcomes of recommended interventions Dr Lidz's approach encourages a broad range of observation with an overarching objective of completing a picture of the whole child from family life to social emotional and neuropsychological functioning She leads the reader through each step of a comprehensive assessment touching on the major data sources necessary for a full understanding of the child within different environments Throughout the book Dr Lidz advocates best assessment practices that reflect the interests of children and families Features useful information on Conducting initial interviews and observations for setting the course of the assessment Using standardized and nonstandardized approaches to generate both qualitative and quantitative data Viewing children and families within their cultural contexts Integrating assessment data sources to generate meaningful recommendations and readable reports Plus Includes unique chapters on play observation of parent child and teacher child interactions and dynamic assessment Early Childhood Assessment is a valuable tool for professionals and students who are concerned about the richness and complexity of children's development within their families and communities

When Are You Coming Home? Hilary Cuthrell, Luke Muentner, Julie Poehlmann, 2023-03-17 As the United States approaches its 50th year of mass incarceration more children than ever before have experienced the incarceration of a parent The vast majority of incarceration occurs in locally operated jails and disproportionately impacts families of color those experiencing poverty and rural households However we are only beginning to understand the various ways in which children cope with the incarceration of a parent particularly the coping of young children who are most at risk for the adversity and also the most detrimentally impacted When Are You Coming Home helps answer questions about how young ones are faring when a parent is incarcerated in jail Situated within a resilience model of development the book presents findings related to children's stress family relationships health home environments and visit experiences through the eyes of the children and families This humanizing social justice oriented approach discusses the paramount need to support children and their families before during and after a parent's incarceration while the country simultaneously grapples with strategies of reform and decarceration Focused Observations, Third Edition Gaye Gronlund, Marlyn James, 2025-04-22 Intentional teaching begins with focused observations and systematic documentation of children's learning and development Focused Observations Third Edition explains why observation is one of the best methods to get to know each child well track progress and plan individualized curriculum It also provides tools and techniques to help you strengthen your observations create portfolios with rich documentation and support each child You will also learn how to share your findings with families and grow as an observer through review and reflection activities Learn answers to common questions about observation including Why should I use observation in my classroom What does effective observation and documentation look like How do

I fit observation in so that it doesn't take away from teaching and interacting with children. How do observation and documentation work with early learning guidelines? Online videos with nineteen vignettes of children in action provide opportunities to practice observing children and capturing what you see. This updated edition includes new examples and provider anecdotes as well as fresh references and research.

Investigating Troublesome Classroom Behaviours Dr Loraine Corrie, Loraine Corrie, 2003-08-27. Get on with your work. Stop talking. Pay attention. Does it sound familiar? Research evidence worldwide shows that managing classroom behaviour continues to cause difficulties for teachers. It is not the acts of violence or defiance that grind down teachers' energy and enthusiasm for their work but dealing with constant repetitions of minor misbehaviours. The prevalent explanation for disruptive behaviour is individual deficit blaming and shaming the children for their inappropriate behaviour and teachers for their lack of management skills. This book shows that this attitude ignores recent research and is prohibiting the future. This book helps teachers investigate children's troublesome classroom behaviour through action research providing them with strategies that will lead to lasting change. A vast range of topics are discussed from practical examples of good teaching and the role of the classroom to carrying out your own research and identifying and building on a teacher's strengths.
