The image shows the internal components of an RV power converter. A green printed circuit board (PCB) is populated with various electronic components, including several blue integrated circuits, red electrolytic capacitors, and a vertical strip of silver terminal blocks. Multiple white insulated wires are connected to these terminal blocks and other points on the board. The entire assembly is housed within a dark, possibly metal, enclosure. A large black heat sink is visible in the lower-left corner, and a black power cord with a red ground wire is connected to the bottom of the unit.
