Mass Media and Communications Dibyanshu Kumar, 2021-09-11

The mass media are diversified media technologies that are intended to reach a large audience by mass communication. The technologies through which this communication takes place vary. In the late 20th Century, mass media could be classified into eight mass media industries: books, newspapers, magazines, recordings, radio, movies, television, and the internet. With the explosion of digital communication technology in the late 20th and early 21st centuries, the question of what forms of media should be classified as mass media has become more prominent. Each mass media has its own content types, its own creative artists and technicians, and its own business models. For example, the Internet includes websites, blogs, podcasts, and various other technologies built on top of the general distribution network. The sixth and seventh media, internet and mobile, are often called collectively as digital media, and the fourth and fifth, radio and TV, as broadcast media. Some argue that video games have developed into a distinct mass form of media. Mass communication was seen by those who owned newspapers, radio, and T V stations, and by cinema producers, mostly as an efficient device to reach messages to a very large number of people in a linear fashion. The media users were seen primarily as targets, passive targets for message intake and appropriate action, either in voting as desired or buying products advertised or imbibing ideas intended by producers. Magic bullet theory suggests that messages were shot directly into the receiver. It assumes that receivers are passive and defenseless and take whatever is shot at them. The magic bullet theory also portrays that the media have a direct, immediate, and powerful effect on those who pay attention to their contents. This book has been intended as a manual for students of this subject. Contents: Television, The People, Crew, Television Past, Present, and Future, News Paper Organization and Management, Printed Media Industry, Theory and Practice, Media Organizations, Film in India, Participatory Journalism, and Weblogs, Weblogs, and Journalism. *Focus On: 100 Most Popular English Male Comedians* Wikipedia contributors, **Tudorism** Tatiana C.
