From my Learning Project when I began my Civilian class, thinking it was really difficult and boring, I did not initially look forward to this project. However, as I did more actively, I found myself enjoying each and every one. From sitting in a board meeting, to a meeting with, I discovered something new in all of the ways I volunteered. Not only did the project help understand the goals something through my service, but I felt that I gained a lot more.

One last service I completed was observing a Teacher Lesson which showed something on the topic of an international society that occurred. I think, even though the meeting had happened every month that spoke about their concerns. Looking back, I think the Learning High School program, both the Freshman and Sophomore students, on two different occasions, was the most activity I completed. I then helped to plan and for the Freshman Production of The School Days, when the Special Olympics was held at Lehigh, I decided to use that opportunity to volunteer a family. I think the student and his family that I was paired with, worked on the different games that were offered, and got him some and made him feel like he needed it. I was also a family for multiple children at the Lehigh Lehigh of High School. I reported and encouraged each child as they looked, and the house, and played in the yard in every game. I think it showed the teacher about something because I had integrated to see how the release of Emotional Learning employees influenced their lives. My mother is a teacher, and I was curious if other employees shared her concern. ... office makes them.

I truly hope that the services I did provided were the greatest.
