such as fried chicken and French fries with fewer calories In fact deep fried recipes made in the air fryer use 90 percent less fat The recipes in this cookbook use only a small amount of oil When air frying oil is poured into a mister and sprayed onto the food before it goes in the appliance Food cooked in an air fryer is healthy in ways you may not expect The closed cooking environment helps to preserve nutrients And because food cooked in an air fryer is often more flavorful with an appealing texture your family may eat more vegetables Who can resist a crisp yet tender broccoli floret that's flavored with herbs You may find your child eating a browned and crisp Brussels sprout with no coaxing The air fryer is easy to clean You simply pull out the basket remove the food unplug the appliance and let the basket and air fryer cool To keep food from sticking to it the basket is coated with a nonstick finish never spray the basket with nonstick cooking spray because that may damage the finish Once the basket is cool rinse it add a bit of soap rinse again and dry Some air fryer baskets are dishwasher safe check the instruction manual
