*Scholars in the Marketplace. The Dilemmas of Neo-Liberal Reform at Makerere University, 1989-2005* Mahmood Mamdani, 2007-09-15 *Scholars in the Marketplace* is a case study of market based reforms at Uganda's Makerere University. With the World Bank heralding neoliberal reform at Makerere as the model for the transformation of higher education in Africa, it has implications for the whole continent. At the global level, the Makerere case exemplifies the fate of public universities in a market oriented and capital friendly era. The Makerere reform began in the 1990s and was based on the premise that higher education is more of a private than a public good. Instead of pitting the public against the private and the state against the market, this book shifts the terms of the debate toward a third alternative than explores different relations between the two. The book distinguishes between privatisation and commercialisation, two processes that drove the Makerere reform. It argues that whereas privatisation, the entry of privately sponsored students, is compatible with a public university where priorities are publicly set, commercialisation, financial and administrative autonomy for each faculty to design a market responsive curriculum, inevitably leads to a market determination of priorities in a public university. The book warns against commercialisation of public universities as the subversion of public institutions for private purposes. **Kenya National**

Muwanga, 2003 Makerere University was first established as a colonial university and its challenge is to consolidate and improve on previous bold reforms. The Partnership for Higher Education in Africa commissioned case studies of higher education provision in Tanzania, Uganda, Kenya, Mozambique, Nigeria, Ghana, and South Africa as part of its effort to stimulate enlightened, equitable, and knowledge based national development and to provide guides to understanding Makerere University. It has shown tremendous resilience from its establishment as a colonial university through the economic hardships, political instability, and mismanagement that began in the 1970s. It has embarked on an impressive road to recovery involving numerous bold reforms. The challenge now is to harness, sustain, improve, and consolidate these changes.
