Committee on Electronic Vehicle Controls and Unintended Acceleration,2012 TRB has released the final version of TRB Special Report 308 The Safety Promise and

Challenge of Automotive Electronics Insights from Unintended Acceleration which examines how the National Highway Traffic Safety Administration NHTSA regulatory research and defect investigation programs can be strengthened to meet the safety assurance and oversight challenges arising from the expanding functionality and use of automotive electronics The report gives particular attention to the NHTSA response to consumer complaints of vehicles accelerating unintentionally and to concerns that faulty electronic systems may have been to blame The committee that produced the report found that the increasingly capable and complex electronics systems being added to automobiles present many opportunities for making driving safer but also present new demands for ensuring their safe performance These safety assurance demands pertain both to the automotive industry development and deployment of electronics systems and to the safety oversight role of NHTSA With regard to the latter the committee recommends that NHTSA give explicit consideration to the oversight challenges arising from automotive electronics and that the agency develop and articulate a long term strategy for meeting these challenges Provided by publisher *POSITIVE SOCIAL CHANGE?* Eng. Monique S. Sidaross, 2013-02 Honestly the American culture education and system need to be reformed for the best interest of the American public nations and the new generation after the End of the World on December 21 2012 Most of the American public cannot understand different styles of life because they never lived or experienced other languages or cultures Some Americans who have lived and worked abroad expressed satisfaction over living in America We could not understand the unexpressed secret but after Engineer Sidaross experienced the life education teaching engineering practice and the downbeat damaging effect of the legal system involvement in American society and culture she noticed misuse of freedom inequality prejudices and researched the cause of excessive lawsuits that Americans have experienced for decades Fortunately her background education professional career and engineering accomplishments prior to going to America was strong enough that she was able to help college and university students in America and reinstate deficient students in their college programs after they understood the concepts of math algebra and calculus that are topics fully learned in high school in Europe and Egypt As a government employed engineer in America she saved the State of California millions of dollars by correcting the mathematical errors of other engineers in engineering design before going to construction Unfortunately women engineers are swindled disparaged ridiculed used as sex objects and their engineering efforts are plagiarized with no justice in the legal system The Board of Engineers itself forged Engineer Sidaross s record without her consent for years until she discovered it after ten years but the court did nothing about it The Department of Education attempted to coerce Ms Sidaross to pay a bribing of 10 000 in addition to another 9 700 money laundering fraudulent amount inserted in her credit bureau records to deny the approval of her student loan for 2012 2013 But we are thankful to ABI IBC and UCC ambassadors California governor Jerry Brown s office and Walden University for their strong support to obtain justice and get her student loan back However this massive fraud has caused six months delay of her graduation and massive unnecessary expenses and waste of tuition during the first

shock when she discovered the fraud and tried to debate it for a few months We have personally lived and witnessed this dilemma with her and we wonder why America treats its citizens especially an accomplished woman engineer with highest level of education internationally and tried to mangle with her excellent records as explained further in the book
