

# Nursing School Reference Letter

January 2, 2017

## To Whom It May Concern

I am pleased to write this letter of recommendation for Amanda Rhode who was a brilliant student of our school. While attending my lectures, she showed herself as an energetic and meticulous student. We regularly discussed a variety of healthcare topics beyond the scope of my course, and I was surprised by her extraordinary nursing abilities and creativity of her ideas.

Amanda has always been interested in the medical field and it is no wonder that she has spent all her free time in the biology lab during her tenure at Greenville High School. Her majors at school included biology, chemistry and physics which are an obvious pointer to where her career is going!

I once asked Amanda why she didn't want to be a doctor; she replied with great passion that nurses are closer to providing care to patients than doctors. She wants to be able to truly make a difference in many people's lives for as long as she possibly can. This was an extremely moving sentiment and I have been watching her closely to see where this leads for over two years now. She had already learned CPR and First Aid and is the first to provide benefit of them when an injury takes place at our sports field or if someone becomes unwell. She is our own little Florence Nightingale!

**The Making of Nurse Professionals** Nancy Crigger,Nelda Godfrey,2010-10-22 The Making of Nurse Professionals A Transformational Ethical Approach is a philosophical inquiry into the current state of educating nurses in ethics and professional identity formation The authors propose a visionary grounded framework for the transformation of students into nurse professionals that is inclusive of virtue ethics and character development The Making of Nurse Professionals is a clarion call to shift from a narrow student consumerist paradigm to one of civic mindedness and recognition of duties to society and the discipline Through this new vision the professional life moves beyond just following rules and becomes one of flourishing and professional growth *From Vocational to Professional Education* Jens-Christian Smeby,Molly Sutphen,2014-11-27 One of the most important routes to employment within the social welfare sector worldwide is higher education which equips students not only with the knowledge for employment but with the tools to use and build on this

knowledge During the last few decades there has been an academic drift in professional education especially for many shorter professional programmes Many of these shorter programmes have left the realm of vocational education to enter higher education On the one hand graduates are confronted by an increased demand for research and evidence based knowledge and on the other they are criticised for lacking the knowledge and skills relevant for professional work From Vocational to Professional Education presents new research into programmes suggesting how best to prepare students for professional work and addresses the challenges facing the education of professionals for social welfare The book identifies and clarifies key problems as well as outlining the political and historical context in which they are embedded Chapters discuss theoretical and analytical ways to address these challenges and suggest recommendations for the further development of education for professional practice Based on comprehensive longitudinal research data the book will appeal to policy makers leaders of higher education and teachers and researchers involved in programmes qualifying students for professional work
