The Official Railway Guide ,1893 **Auditing and GRC Automation in SAP** Maxim Chuprunov,2013-04-09 Over the
last few years financial statement scandals cases of fraud and corruption data protection violations and other legal violations
have led to numerous liability cases damages claims and losses of reputation As a reaction to these developments several
regulations have been issued Corporate Governance the Sarbanes Oxley Act IFRS Basel II and III Solvency II and BilMoG to
name just a few In this book compliance is understood as the process mapped not only in an internal control system that is
intended to guarantee conformity with legal requirements but also with internal policies and enterprise objectives in
particular efficiency and profitability The current literature primarily confines itself to mapping controls in SAP ERP and
auditing SAP systems Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal
compliance to include efficiency and profitability and then well beyond because a basic understanding of the processes
involved in IT supported compliance management processes are not delivered along with the software Starting with the
requirements for compliance Part I he not only answers compliance relevant questions in the form of an audit guide for an
SAP ERP system and in the form of risks and control descriptions Part II but also shows how to automate the compliance
management process based on SAP GRC Part III He thus addresses the current need for solutions for implementing an
integrated GRC system in an organization especially focusing on the continuous control monitoring topics Maxim Chuprunov
mainly targets compliance experts auditors SAP project managers and consultants responsible for GRC products as readers
for his book They will find indispensable information for their daily work from the first to the last page In addition MBA
management information system students as well as senior managers like CIOs and CFOs will find a wealth of valuable
information on compliance in the SAP ERP environment on GRC in general and its implementation in particular **The

House of Commons - Transport Committee: Cost of Motor Insurance: Whiplash - HC 117 Great Britain: Parliament: House of Commons: Transport Committee,2013-07-31 Whiplash injuries can have debilitating consequences for those who suffer them However some of the increase in whiplash claims will have been due to fraud or exaggeration The Government must tighten up the requirements for motor insurance claims and ensure that insurers honour their commitment to reduce premiums The Government should consider requiring claimants to provide proof that they have either been seen by a doctor or attended A E shortly after the accident The MPs also note that their previous recommendation on making the links between insurers and other parties involved with claims more transparent has been ignored The absence of comprehensive statistics about road traffic accidents means that it is impossible to relate the increasing number of personal injury claims in recent years to the number of accidents Data collection about road accidents needs to be improved help to assist detection of fraudulent personal injury claims and help highways authorities improve road safety by targeting spending

on accident black spots The Committee also supports the proposal for an accreditation scheme for medical practitioners who provide medical reports in relation to whiplash claims Access to justice could also be impaired by Government proposals to switch whiplash claims between 1 000 and 5 000 to the small claims court particularly for people who do not feel confident to represent themselves against insurers who will use legal professionals to contest claims Ways in which use of the small claims track could be combined with the routine submission of expert evidence should be considered
