Teaching and Learning High School Mathematics Charlene E. Beckmann, Denisse R. Thompson, Rheta N. Rubenstein, 2009-11-02 Too many high school students faced with mathematics in courses at the level of algebra and beyond find themselves struggling with abstract concepts and unwilling to pursue further study of mathematics When students curtail their course taking in mathematics they may be impacting their college and career options Thus high school mathematics teachers have the responsibility to help students recognize the value and importance of mathematics while also designing instruction that makes mathematics accessible to all students Ball and Bass 2000 as well as other mathematics educators have recognized that mathematics teachers not only need to know mathematics content and mathematics pedagogy i.e. teaching strategies but they also need to know how these ideas are integrated This mathematical knowledge for teaching is the knowledge that teachers of mathematics need and it differs from the knowledge that research or applied mathematicians must know This text is designed to provide teachers with insights into this mathematical knowledge for teaching *Teaching and Learning High School Mathematics* is likely different from many other texts that you have used It integrates both content and pedagogy to help you develop and build your own understanding of teaching The text is designed to help you develop deep conceptual understanding of fundamental mathematics Ma 1999 so that you are able to approach mathematics from multiple perspectives with many tools Such flexibility in teaching is essential if teachers are to help all students become mathematically proficient Throughout this book you are encouraged to work in cooperative teams This strategy is designed to help you develop a mathematics learning community and build a professional

network that will be a valuable resource during your professional career Hopefully you will experience the benefits of engaging in rich mathematical discussions with peers and consider how to encourage such learning environments in your own classrooms Lesson planning is another element pervasive throughout this text To help teachers plan for effective student centered lessons the Question Response Support QRS Guide is introduced in Lesson 1 1 and used throughout the remainder of the lessons The QRS Guide is a tool on which teachers may record tasks or questions Q for students expected and observed student responses R and teacher support S in the form of additional just enough questions to support students in their progress on the task In each unit teachers expand their repertoire of teaching and learning elements and strategies and incorporate these elements as they plan additional lesson segments In Unit 4 lesson planning is formally introduced as teachers put together elements from previous units into complete cohesive lesson plans

Teacher Selection and Interview Portfolios Ronald K. Theel, 2002-04-27 The major research questions for this study were a What forms do teacher interview portfolios take b What meaning do school principals make of these portfolios c How if at all are teacher portfolios being used by principals in deciding whom to hire This was a case study using qualitative research

procedures The study was situated in the hiring policies and practices of Central City School District from 1995 to 1999 Semi structured interviews of 18 k 12 principals and 4 key informants were primary means of data gathering Document analyses supplemented interview data Interview portfolios typically consisted of lesson plans photographs of projects activities and teacher student interactions and supporting examples of classroom practice Statements of educational philosophy credentials letters of reference transcripts and other background information were also included Most principals viewed portfolios as a way for candidates to express their educational beliefs illustrate skills and methods and supplement the interview with examples from applicants experience Principals expressed a desire for more evidence of having used the portfolio development process as a means of reflection and introspection Overall interview portfolios were not key contributors to principals hiring decisions The reasons for this varied Some principals mentioned time constraints during interviews Others expressed skepticism that portfolios provided meaningful evidence of candidates teaching ability and people skills Propositions and implications for future research center on portfolio format and assessment criteria authenticity and self knowledge selection interview procedures teacher preparation teacher recruitment and hiring and information management in Central City School District Perhaps one of the most valuable benefits of the portfolio process lies in the development of a new norm for the profession placing discussion and debate about what constitutes good teaching into a public forum

When Critical Multiculturalism Meets Mathematics Patricia L. Marshall, Jessica T. DeCuir-Gunby, Allison W. McCulloch, 2015-12-14 *When Critical Multiculturalism Meets Mathematics* details the development and outcomes of a teacher professional development project that merged multiculturalism and mathematics In six compact chapters the authors describe the impetus for their multi year project and present rich case studies of nine teacher participants The cases stand alone as compelling reading yet Marshall et al extend beyond their distinctiveness to explain the statistical data related to the project s broader impact Emphasizing both qualitative and quantitative findings makes this book ideal for novice researchers interested in mixed method study Likewise the authors unveil the anatomy and a few complexities of conducting research in the real world contexts of schools including participant recruitment and resolution of unanticipated matters that can arise within research teams A unique twist in the final chapter is Marshall et al s critique of their own missteps as researchers which are used skillfully and unobtrusively to proffer tips for future studies They conclude by theorizing affirmed intersectionality identified as the critical element that facilitated teachers recognition and acceptance of the compatibility between the study s two components *Change(d) Agents* Betty Achinstein, Rodney T.
