The 'Language Instinct' Debate Geoffrey Sampson,2005-05-01 When it was first published in 1997 Geoffrey Sampson s *Educating Eve* was described as the definitive response to Steven Pinker s *The Language Instinct* and Noam Chomsky s nativism In this revised and expanded new edition Sampson revisits his original arguments in the light of fresh evidence that has emerged since the original publication Since Chomsky revolutionized the study of language in the 1960s it has increasingly come to be accepted that language and other knowledge structures are hard wired in our genes According to this view human beings are born with a rich structure of cognition already in place But people do not realize how thin the evidence for that idea is *The Language Instinct Debate* examines the various arguments for instinctive knowledge and finds that each one rests on false premisses or embodies logical fallacies The structures of language are shown to be purely cultural creations With a new chapter entitled *How People Really Speak* which uses corpus data to analyse how language is used in spontaneous English conversation responses to critics extensive revisions throughout and a new preface by Paul Postal of New York University this new edition will be an essential purchase for students academics and general readers interested in the debate about the language instinct
