Russia Lost In Transition The Yeltsin And Putin Legacies:

Russia--lost in Transition Lilia Shevtsova, 2007 Russian history is first and foremost a history of personalized power As Russia startles the international community with its assertiveness and faces both parliamentary and presidential elections Lilia Shevtsova searches the histories of the Yeltsin and Putin regimes She explores within them conventional truths and myths about Russia paradoxes of Russian political development and Russia's role in the world *Russia Lost in Transition* discovers a logic of government in Russia a political regime and the type of capitalism that were formulated during the Yeltsin and Putin presidencies and will continue to dominate Russia's trajectory in the near term Looking forward as well as back Shevtsova speculates about the upcoming elections as well as the self-perpetuating system in place the legacies of Yeltsin and Putin and how it will dictate the immediate political future She also explores several scenarios for Russia's future over the next decade

Media Transformations in the Post-Communist World Peter Gross, Karol Jakubowicz, 2012-10-18 *Media Transformations in the Post Communist World Eastern Europe's Tortured Path to Change* edited by Peter Gross and Karol Jakubowicz is a collection of analyses of Eastern European media by some of the most distinguished scholars in the field This in-depth exploration shows how despite positive changes after the fall of Communism the transformations of societal institutions including the mass media have turned out to be slow uncertain and unsatisfying to many when measured against the admittedly ambiguous and overly Panglossian expectations This collection offers readers a different view of post-Communist media by examining the mass media's evolution in the region from a more holistic perspective The contributors to this volume respond to essential questions including Is the post-Communist transition and transformation over When can it be considered over Each chapter contributes to our understanding of these questions by offering theoretical overviews and country-specific studies This collection serves as an affirmation that the study of mass media is essential to understanding the nature and workings of democracy in the long-suffering nations of Central and Eastern Europe with international applications *Media Transformations in the Post Communist World* is an indispensable contribution to the study of Eastern Europe after Communism and the transformations of mass media in the region

Politics In Russia: A Reader Joel M. Ostrow, 2013 Covering the major contours of any Russian politics course and comprehensive enough to serve as a core text this new reader includes sections from the Soviet political system and its collapse to the debate about post-Communist transition and efforts toward political and economic reform A former journalist who worked in Russia Ostrow's substantial headnotes blend needed background with insights from his experience to create a nuanced treatment of Russian politics

Politics in Europe M. Donald Hancock, Christopher J. Carman, Marjorie Castle, David P. Conradt, Raffaella Y. Nanetti, Robert Leonardi, William Safran, Stephen White, Michelle Hale Williams, Mary N. Hampton, 2018-05-29 *Politics in Europe* Seventh Edition introduces students to the power of the European Union as well as seven political systems the UK France Germany Italy Sweden Russia Poland within a common analytical framework that

enables students to conduct both single case and cross national analysis Each case addresses the most relevant questions of comparative political analysis who governs on behalf of what values with the collaboration of what groups in the face of what kind of opposition and with what socioeconomic and political consequences Packed with captivating photos and robust country descriptions from regional specialists the Seventh Edition enables students to think critically about these questions and make meaningful cross national comparisons *Crisis in the Caucasus: Russia, Georgia and the West* Paul B.

Rich,2013-09-13 This collection of essays by a series of academic specialists examines the crisis stemming from the Russian invasion of Georgia in August 2008 from a range of standpoints The chapters probe the geopolitical and strategic dimensions of the crisis as well as the longer term military and diplomatic implications for Europe and the central Asian region The collection will be of major importance to students of Russia and Eastern Europe military analysts as well as journalists and politicians concerned with what some observers have termed a new cold war between Russia and the West This book was published as a special issue of Small Wars and Insurgencies *Historical Dictionary of the Russian Federation* Robert A.

Saunders,2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia

Global Governance and Transnationalizing Capitalist Hegemony Ian Taylor,2016-11-25 This book is a critique of claims regarding how emerging economies are supposedly rewriting the rules of global governance and ushering in alternative models to neoliberal orthodoxy It argues that such assumptions are abstractions that ignore both the transnationalizing nature of the global political economy and the actual policy goals of the ruling classes within most emerging economies Considering the larger issues behind the emerging economies or powers debate the book deploys an adapted global capitalism perspective with insights from Gramsci Poulantzas and Cox to argue that the transnational nature of the global political economy and the actual policy goals of the dominant elites within most emerging economies merge to undermine any transformative element Far from challenging the global order these ostensible new rivals in fact seek to integrate their economies more and more within the existing liberal global economy Inter state dynamics and even inter elite tensions exist and it is clear that the nation state has not simply become a transmission belt for global capital but equally we must move beyond the surface phenomena that are most visible in global tensions to get at the underlying essence of social

and class forces in the global political economy Looking at the largest emerging powers such as Brazil Russia India and China Taylor explains why the emerging powers elites although essentially subscribing to neoliberalism in all its variegated forms may confront the core in a myriad of ways but that these are not challenges to the ongoing world order and in fact the so called emerging powers serve a legitimizing function for the extant global system The book will be of great use to graduates and scholars of International Relations Global International Political Economy and International Development

Development Aid in Russia J. Marquand, 2009-02-12 Drawing on both Development Studies and post Soviet literature this study examines projects in Siberia since the fall of the Berlin Wall Focusing on critical accounts of development projects in Siberia managed by the author this book provides a first hand account of the successes and failures of development aid

Routledge Handbook of Russian Politics and Society Graeme Gill, 2022-12-23 This second edition of the highly respected Routledge Handbook of Russian Politics and Society both provides a broad overview of the area and highlights cutting edge research into the country Through balanced theoretical and empirical investigation each chapter examines both the Russian experience and the existing literature identifies and exemplifies research trends and highlights the richness of experience history and continued challenges inherent to this enduringly fascinating and shifting polity Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook answers questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption the development of a market economy and Russia's likely place in the emerging new world order Providing a comprehensive resource for scholars students and policy makers alike this book is an essential contribution to the study of Russian studies politics Eastern European studies politics and International Relations

The Politics of Security in Modern Russia Mark Galeotti, 2016-03-03 The Putin era saw a striking securitization of politics something that he has bequeathed to his chosen successor Dmitry Medvedev The omens from the early days of the Medvedev presidency have been mixed marked both by less confrontational rhetoric towards the West and by war with Georgia and continued re armament Has the Medvedev generation learned the lessons not just from the Soviet era but also from the Yeltsin and Putin presidencies or will security remain the foundation of Russian foreign and domestic policy Fully up to date to reflect the evolving Medvedev presidency the 2008 Georgian war and the impact of the economic downturn this volume is a much needed objective and balanced examination of the ways in which security has played and continues to play a central role in contemporary Russian politics The combination of original scholarship with extensive empirical research makes this volume an invaluable resource for all students and researchers of Russian politics and security affairs

Russian civil-military relations , *The Crisis of Russian Democracy* Richard Sakwa, 2010-12-16 The view that Russia has taken a decisive shift towards authoritarianism may be premature but there is no doubt that its democracy is in crisis In this original and dynamic analysis of the fundamental processes shaping contemporary Russian politics Richard

Sakwa applies a new model based on the concept of Russia as a dual state Russia's constitutional state is challenged by an administrative regime that subverts the rule of law and genuine electoral competitiveness This has created a situation of permanent stalemate the country is unable to move towards genuine pluralist democracy but equally its shift towards full scale authoritarianism is inhibited Sakwa argues that the dual state could be transcended either by strengthening the democratic state or by the consolidation of the arbitrary power of the administrative system The future of the country remains open

China, The United States, and the Future of Central Asia David Denoon, 2015-07-10 The first of a three volume series on the interaction of the US and China in different regions of the world China the United States and the Future of Central Asia explores the delicate balance of competing foreign interests in this resource rich and politically tumultuous region Editor David Denoon and his internationally renowned set of contributors assess the different objectives and strategies the U S and China deploy in the region and examine how the two world powers are indirectly competitive with one another for influence in Central Asia While the US is focused on maintaining and supporting its military forces in neighboring states China has its sights on procuring natural resources for its fast growing economy and preventing the expansion of fundamentalist Islam inside its borders This book covers important issues such as the creation of international gas pipelines the challenges of building crucial transcontinental roadways that must pass through countries facing insurgencies the efforts of the US and China to encourage and provide better security in the region and how the Central Asian countries themselves view their role in international politics and the global economy The book also covers key outside powers with influence in the region Russia with its historical ties to the many Central Asian countries that used to belong to the USSR is perhaps the biggest international presence in the area and other countries on the region's periphery like Iran Turkey Pakistan and India have a stake in the fortunes and future of Central Asia as well A comprehensive original and up to date collection this book is a wide ranging look from noted scholars at a vital part of the world which is likely to receive more attention and face greater instability as NATO forces withdraw from Afghanistan

The Myth of the Strong Leader Archie Brown, 2014-04-08 From one of the world's preeminent political historians a magisterial study of political leadership around the world from the advent of parliamentary democracy to the age of Obama All too frequently leadership is reduced to a simple dichotomy the strong versus the weak Yet there are myriad ways to exercise effective political leadership as well as different ways to fail We blame our leaders for economic downfalls and praise them for vital social reforms but rarely do we question what makes some leaders successful while others falter In this magisterial and wide ranging survey of political leadership over the past hundred years renowned Oxford politics professor Archie Brown challenges the widespread belief that strong leaders meaning those who dominate their colleagues and the policy making process are the most successful and admirable In reality only a minority of political leaders will truly make a lasting difference Though we tend to dismiss more collegial styles of leadership as weak it is often the most cooperative leaders who have the greatest impact Drawing on extensive research and

decades of political analysis and experience Brown illuminates the achievements failures and foibles of a broad array of twentieth century politicians Whether speaking of redefining leaders like Franklin Delano Roosevelt Lyndon Johnson and Margaret Thatcher who expanded the limits of what was politically possible during their time in power or the even rarer transformational leaders who played a decisive role in bringing about systemic change Charles de Gaulle Mikhail Gorbachev and Nelson Mandela among them Brown challenges our commonly held beliefs about political efficacy and strength Overturning many of our assumptions about the twentieth century s most important figures Brown s conclusions are both original and enlightening The Myth of the Strong Leader compels us to reassess the leaders who have shaped our world and to reconsider how we should choose and evaluate those who will lead us into the future Unlearning the Soviet Tongue Natalia Kovalyova,2014-09-24 How do countries democratize What route does the way out of totalitarianism take Students of Russian politics have pursued answers to these questions by surveying Russians on a variety of attitudes beliefs norms and practices This book attends to political discourse to demonstrate how it creates and constraints political opportunities It examines an important period of Russian political history from Boris Yeltsin s second presidential election in 1996 when democracy was pronounced victorious through its gradual slide toward authoritarian practices during Vladimir Putin s initial two terms in office and to the election of his protégé Dmitry Medvedev in 2008 This analysis challenges the assertions of Russian democracy as doomed by the governing rationalities of the elites Likewise it refutes the notion of Russians as an apathetic nation in chronic need of a strong hand It argues that if we are to understand how Russia lives how it endures and how it can change we need to pay attention to the discourses that shape Russian political identities and the nation s political future *Turkey's Foreign Policy and Security Perspectives in the 21st Century* Sertif Demir,2016-04-23 This book aims at analyzing Turkish foreign and security policies in the 21st century Turkey s foreign and security policies have become the focus of academic discussions since Turkey is located in the middle of the most unstable region in the world Turkey s self assured foreign policy has similarly attracted the attention of academicians worldwide Meanwhile Turkey s security policy has also been the subject of discussions as the country has been struggling with ethnic terrorism for 35 years Furthermore the US invasion of Iraq and the recent Syrian civil war along with other factors have caused religious radicalism to expand its power throughout the Middle East which has heavily impacted on Turkey s security Turkey s longstanding problems with its neighbors have also affected the general characteristics of its foreign policy particularly leading to its securitization The Oligarchs Claes Ericson,2012-03-04 The Oligarchs is the dramatic but serious story about how a small group of young entrepreneurs could become some of the world s richest men and get control of the president of a fallen super power in the process **Democracy Promotion as US Foreign Policy** Nicolas Bouchet,2015-06-19 The role of democracy promotion in US foreign policy has increased considerably in the last three decades booming especially in the immediate years after the end of the Cold War The rise of democracy promotion originated in a long historical tradition that saw exporting American

political values as instrumental in securing US security and economic interests an idea which was expressed freely once Cold War strategic constraints disappeared Under Bill Clinton there was an explicit attempt to do so by reframing American strategy in terms of democratic enlargement and this book assesses the strategic use of democracy promotion in US foreign policy and its different outcomes during his presidency Offering a comprehensive global review of American democracy engagement with different regions of the world and key countries during a whole presidency this book assesses how far the US has benefited from democracy promotion It evaluates the instrumental value of democracy promotion for America by seeing whether the Clinton administration s efforts in this field and their varying impacts to democratization abroad were matched by progress in securing US strategic goals defined under enlargement in particular reducing international conflicts and spreading economic liberalization around the world The book explores how democracy became central to US post Cold War strategy how the Clinton administration developed the concept of democratic enlargement and tried to implement it and why it remained influential on foreign policy throughout Clinton s presidency With an analysis of the legacy of Clinton s democracy promotion and its relevance to the subsequent policies of George W Bush and Barack Obama this book is essential reading for students and scholars interested in Foreign Policy American History and Security Studies *International Politics* Egbert Jahn, 2015-11-03 This volume analyses the historical background of violent international conflicts Starting with an analysis of the conflict and cooperation structures in post communist Eastern Europe and the eastern expansion of the European Union the author discusses the problem of acts of intervention in response to severe human rights violations taking Kosovo Libya and in a further text also Darfur as examples To analyse the subject of ethnonational autonomy and independence movements the author presents case studies on Bosnia Herzegovina Belgium Cyprus on the Kurdish areas of Iraq Iran Syria and Turkey on Israel Palestine on China with regard to Tibet and Xinjiang and on the genocide of the Armenians in the Ottoman Empire The classic subjects of inter state security and armament policy include the controversy over the nuclear policies of Iran and North Korea while the analysis of the changes in Russia s political system focuses on their far reaching consequences for international politics This book will appeal to students and scholars of international relations and peace and conflict studies as well as to practitioners and decision makers in the field of peace politics

Social Distinctions in Contemporary Russia Jouko Nikula, Mikhail Chernysh, 2020-04-29 This book analyses social change in Russia in particular the development of a middle class one of the most important social and political projects of Putin s administration Using unique survey data collected in 1998 2007 and 2015 the authors make extensive and theoretically justified analyses of the changing social distinctions in Russia over the past 20 years Offering a sophisticated analysis of classes and class they acknowledge that in class analysis there are different phases requiring different concepts The first phase is the analysis of class positions the second is the study of the work and reproduction situations of class groups and the final step is the analysis of class interests While acknowledging that there are a number Russian specific factors that

seriously complicate traditional class analysis the authors maintain that the basic tenets of class analysis still hold true The book will be of interest to students and scholars of sociology political science transition studies social policy and Russian studies and anyone who wants to understand the internal divisions and organization of the middle class in Russia

Right here, we have countless book **Russia Lost In Transition The Yeltsin And Putin Legacies** and collections to check out.
