Ryerson Journalism Application Deadline:

This Team Is Ruining My Life (But I Love Them) Steve "Dangle" Glynn, 2019-03-19 Steve Dangle's incredible odyssey from self-starting Leafs lover to sports media star. How do you turn ranting about hockey into a career? Steve Dangle Glynn is a YouTuber, podcaster, and sports personality from Toronto who managed to turn a 16-second online rant about the Maple Leafs into a career in sports media. From video blogging in his parents' house at 19 to yelling on televisions across Canada at 28, Dangle has been involved with some of the most important sports companies in the country. In between tales of Steve's adventures both online and off, *This Team Is Ruining My Life* is also a kind of how-to or how-not-to guide in an ever-evolving media landscape. Sometimes you have to get creative to find the job you want. This is Steve Dangle and his accidentally on-purpose journey through sports media so far. *The SAGE International Encyclopedia of Mass Media and Society* Debra L. Merskin, 2019-11-12 The SAGE International Encyclopedia of Mass Media and Society discusses media around the world in their varied forms: newspapers, magazines, radio, television, film, books, music, websites, social media, mobile media, and describes the role of each in both mirroring and shaping society. This encyclopedia provides a thorough overview of media within social and cultural contexts, exploring the development of the mediated communication industry, mediated communication regulations, and societal interactions and effects. This reference work will look at issues such as free expression and government regulation of media, how people choose what media to watch, listen to, and read, and how the influence of those who control media organizations may be changing as new media empower previously unheard voices. The role of media in society will be explored from international multidisciplinary perspectives via approximately 700 articles drawing on research from communication and media studies, sociology, anthropology, social psychology, politics, and business. *Morals and the Media* Nick Russell, 1994 Confronted daily with decisions on how to present their stories, what to write and what not to write, journalists and the media are frequently accused of sensationalizing, of choosing to report the bad news, and of misquoting those they interview. In this substantially updated edition of *Morals and the Media*, Nick Russell addresses many of the concerns the public has about the media as he examines why the media behave the way they do. He also discusses how values have been developed and applied and suggests value systems that can be used to judge special situations. **Morals and the Media, 2nd edition** Nicholas Russell, 2011-11-01 Confronted daily with decisions on how to present their stories, what to write and what not to write, journalists and the media are frequently accused of sensationalizing, of choosing to report the bad news, and of misquoting those they interview. Journalism's Narrative of Mental Illness Ronald Bishop, 2023-03-24 In *The Thematic Evolution of Sports Journalism's Narrative of Mental Illness: A Little Less Conversation* Ronald Bishop contends that the conversation developed and sustained by sports journalists about professional athletes' experience with mental illness has evolved through three slightly overlapping stages each marked by a primary theme. During the first stage from the end of the 19th Century to the middle of the 20th century sports journalists sensationalized the experience and portrayed the athletes breathlessly labeled insane as tragic figures. During the roughly two decade second stage an athlete's experience with mental illness was portrayed as an inconvenience that flummoxed and infuriated team officials who had neither the ability nor the inclination to address the issue. The final stage leading up to present day and beyond is most notable for the development and widespread adoption of a coverage template that centers around an athlete's brave decision to reveal and discuss their experiences. Combining historical research and narrative analysis Bishop interrogates whether sports journalists have finally begun to cover the experience of mental illness with sufficient depth. Scholars of media studies, journalism, celebrity studies and sports psychology will find this book of particular interest.

Strategies for Media Reform Jonathan A. Obar, Cheryl Martens, Robert W. McChesney, 2016-08-04 Media reform plays an increasingly important role in the struggle for social justice. As battles are fought over the future of investigative journalism, media ownership, spectrum management, speech rights, broadband access, network neutrality, the surveillance apparatus and digital literacy, what effective strategies can be used in the pursuit of effective media reform? Prepared by thirty three scholars and activists from more than twenty five countries *Strategies for Media Reform* focuses on theorizing media democratization and evaluating specific projects for media reform. This edited collection of articles offers readers the opportunity to reflect on the prospects for and challenges facing campaigns for media reform and gathers significant examples of theory, advocacy and activism from multinational perspectives.

Reckoning Candis Callison, Mary Lynn Young, 2020 How do journalists know what they know? Who gets to decide what good journalism is and when it's done right? What sort of expertise do journalists have and what role should and do they play in society? Until a couple of decades ago journalists rarely asked these questions largely because the answers were generally undisputed. Now the stakes are rising for journalists as they face real time critique and audience pushback for their ethics, news reporting and relevance. Yet the crises facing journalism have been narrowly defined as the result of disruption by new technologies and economic decline. This book argues that the concerns are in fact much more profound. Drawing on their five years of research with journalists in the U.S. and Canada in a variety of news organizations from

startups and freelancers to mainstream media the authors find a digital reckoning taking place regarding journalism's founding ideals and methods The book explores journalism's long standing representational harms arguing that despite thoughtful explorations of the role of publics in journalism the profession hasn't adequately addressed matters of gender race intersectionality and settler colonialism In doing so the authors rethink the basis for what journalism says it could and should do suggesting that a turn to strong objectivity and systems journalism provides a path forward They offer insights from journalists' own experiences and efforts at repair reform and transformation to consider how journalism can address its limits and possibilities along with widening media publics
