Before using the device for the first time or the battery is not enough a long time, you must first to charge the battery. In the state of the power on it all phone screens that show the battery cover when you charge the battery.

Only use the company's existing changes, history and data (without using the change or data collection software) to determine the battery's condition or cell damage for equipment in the condition of charging, all right down to the battery cell right down to the battery's condition. The battery has been completed (after the battery is fully charged) the system will show its working status.

When the power is lost, the battery will shut down automatically.

- **File-sharing software is king.** It may seem to go against the program's intent to suggest to artists that they create their own content, but the music business is so desperate for new revenue that it's willing to do anything. And that includes using the same tactics it once used to shut down file sharing.
