Countdown to Zero Day Kim Zetter, 2015-09-01 A top cybersecurity journalist tells the story behind the virus that sabotaged Iran s nuclear efforts and shows how its existence has ushered in a new age of warfare one in which a digital attack can have the same destructive capability as a megaton bomb Immensely enjoyable Zetter turns a complicated and

technical cyber story into an engrossing whodunit The Washington Post The virus now known as Stuxnet was unlike any other piece of malware built before Rather than simply hijacking targeted computers or stealing information from them it proved that a piece of code could escape the digital realm and wreak actual physical destruction in this case on an Iranian nuclear facility In these pages journalist Kim Zetter tells the whole story behind the world's first cyberweapon covering its genesis in the corridors of the White House and its effects in Iran and telling the spectacular unlikely tale of the security geeks who managed to unravel a top secret sabotage campaign years in the making But Countdown to Zero Day also ranges beyond Stuxnet itself exploring the history of cyberwarfare and its future showing us what might happen should our infrastructure be targeted by a Stuxnet style attack and ultimately providing a portrait of a world at the edge of a new kind of war

Профиль 14-2014 Редакция журнала Профиль, 2015-05-21 2005 Der Spiegel *Automotive Global Value Chain* Wilson Kia Onn Wong, 2017-08-09 Today some suppliers have grown increasingly powerful and in certain cases earn revenues that rival or even exceed that of their automaker clients In the pre globalisation period automakers wielded absolute power over their significantly smaller suppliers This book reveals the upending of this relationship with the gradual shift in the balance of power from automakers to their suppliers in this era of globalisation The book examines how suppliers in the global tyres seats constant velocity joints hereafter CVJs braking systems and automotive semiconductor industries have evolved into powerful oligopolies through a mix of acquisition and organic growth strategies It also highlights how joint ventures could be strategically deployed as springboards to acquisition as they enable firms to familiarise themselves with their partners markets and operations Moreover the book analyses the disruption stirred by the entry of well resourced technology titans into this industry and their inevitable clash with the traditional incumbents This book is an invaluable reference for anyone interested in learning more about the automakers and now their suppliers relentless quest to create market dominating intelligent driving systems

The Cypriot Agent J.R. Rogers, 2015-09-15 1974 Charged by the Justice Department and the FBI with espionage and facing arrest in Washington D C the CIA intervenes and allows the Soviets to recall Marina Kovalev known as Brenda Farber a Soviet mole in order to avoid the embarrassment of revealing to

the world that the U S had been duped Now the CIA sets in motion a covert action to board the vessel returning her to the Soviet Union at its final port of call in Famagusta Cyprus and there deal with her once and for all As the Agency plots the slow progress of the freighter across the Atlantic and into the Eastern Mediterranean the ouzo flows and the cigarette smoke swirls in the Constantia Taverna in Famagusta There the Agency s hired Cypriot assassin Georgios Spyrou and his former sidekick Manos Pavlou who wants in on the action debate the risks of the assignment and how best to carry it out On the ground for the CIA is Orville Middleton an officer under non official cover who recruits Spyrou a former British MI6 hit man However an hour away in the capital city of Nicosia and behind the closed doors of the Soviet Embassy countermeasures are being put into play by the KGB Rezident Suspecting the Americans intend to somehow double cross them Kovalev is secreted off the freighter in Istanbul and flown home But when Spyrou and Pavlou finally board the Soviet bulk freighter Komsomolets Smolensk in Famagusta they are ambushed by the forewarned crew and overpowered From Moscow to the KGB Rezidentura comes instructions the surviving Cypriot hit man is to be transported to the Soviet Union for interrogation Spyrou is jailed aboard the Nikolayev an 8 500 ton Kara class large anti submarine warfare ship of the Soviet Navy s Black Sea Fleet and brought to Novorossiysk There in the naval base town on the Black Sea a KGB interrogator awaits He has orders to break the Cypriot and learn about the plot while awaiting instructions from Moscow **Cornflakes with Whisky** Les King,2015-11-25

An affectionate and humorous gallop through the authors four decades of community policing across the Midlands counties of England from the early 1970s until his retirement in 2003 As the author says All cops who have served for some time could both tell and write some good stories In that respect this book is not unique I hope that what is unique is that this story picks up the emotions the characters and the true feelings that so often are not described when cops recount their experiences But this is more It is a story of two loves The first is the love of a job that served me well for 33 years but just as importantly it is a story of love and marriage that has survived even longer The job and the marriage were entwined inextricably because in the days when this story started they had to be there was no choice Does this sound like survival Well at times it probably was for both of us Do I regret any of it No not one bit Does my wife Jud Well you had better ask her *Global Sustainability, Cultural Perspectives and Challenges for Transdisciplinary Integrated Research* Benno Werlen,2015-05-28 This book offers new perspectives of transdisciplinary research in methodological as well as theoretical respects It provides insights in the two fold bio physical and the socio cultural global embeddedness of local living conditions on the basis of selected empirical studies from Latin America Asia Africa Australia and Europe The theoretical foundations of ecological research and sustainability policies were developed at the end of the nineteenth century They are largely based on investigations of living spaces and the evolution and differentiation of varied life forms This perspective is embedded in the practical and theoretical European problem situations of the past and lacks social and cultural differentiation The transformation of spatial and natural relations as a result of the globalization process is so radical that new theories are needed to solve 21st century

ecological problems Moreover in view of the lack of an ontologically sound and promising strategy for transdisciplinary problem solving as well as an acceptable consideration of the power of cultural schemas relating to natural living s interpretations there is a strong need to focus on sustainable social practices habits and routines rather than on predominantly living spaces or eco topes This book elaborates on the transdisciplinary approach by reflecting on the theoretical heritage and a global perspective of sustainability by focusing on the primary role of a social approach in sustainability research and by putting emphasis on cultural dimension of sustainability It postulates that global sustainability is grounded in a global understanding of our everyday activities
