## Probability Project: Design Your Own Game

In this assignment, you will be designing your own game in groups. The game should be the type of game that you would play at a **carnival, amusement park or casino**. It **cannot** be a game that already exists— your **group must create a unique game**. You must be able to explain the probability of your game, so don't make it too complicated!

### Final Products:

1. **Game** – Include all game boards, playing pieces, cards, balls, etc. for your game.
2. **Instructions** - You must create a set of written or typed instructions to clearly explain your game. They must be easy to follow so that anyone can pick them up, read them and begin playing your game.
3. **Write-Up** – See below.

### Grading:

See rubric (next page).

### The Write-Up

1. Introduction - Provide an overview of your game. **(1 Per Group)**
  - What type of game is it?
  - Where would you play this type of game?
  - How much does it cost to play?
  - What are the prizes if you win?
2. Instructions - Step-by-Step instructions for how to play the game. **(1 Per Group)**
3. Game Description – What do you need to play the game? **(1 Per Group)**
  - List all materials needed to play (dice, spinner, darts, ball, etc.)
  - Draw pictures of your game board, if necessary.

*10 Great Makerspace Projects Using Math* Kevin Hall, 2017-07-15 Technology has become a major component of today's classroom environment. Teachers are using new methods like makerspaces in order to engage their students. Makerspaces refer to tools students can use to explore, discover, and create new ideas and concepts using technology. This book will focus on makerspace projects that will help students with math. Complete with detailed directions and examples, this easy-to-read guide will focus on new methods of learning and mastering mathematical concepts. At last, there's a way to make math fun and hands-on using the latest tools and technology.

**Practical Design Patterns for Teaching and Learning with Technology** Yishay Mor, Harvey Mellor, Steven Warburton, Niall Winters, 2014-05-08 These are challenging times in which to be an educator. The constant flow of innovation offers new opportunities to support learners in an environment of ever-shifting demands. Educators work as they have always done, making the most of the resources at hand and dealing with constraints to provide experiences which foster growth. This was John Dewey's ideal of education 80 years ago, and it is still relevant today. This view sees education as a practice that achieves its goals through creative processes involving both craft and design. Craft is visible in the resources that educators produce and in their interactions with learners. Design, though, is tacit, and educators are often unaware of their own design practices. The rapid pace of change is shifting the balance from craft to design, requiring that educators' design work become visible, shareable, and malleable. The participatory patterns workshop is a method for doing this through engaging practitioners in collaborative reflection, leading to the production of structured representations of design knowledge. The editors have led many such workshops, and this book is a record of that endeavour and its outcomes in the form of practical design narratives, patterns, and scenarios that can be used to address challenges in teaching and learning with technology.

*Math Projects, Grades 5 - 8* Stulgis-Blalock, 2011-04-18 Make math matter to students in grades 5 and up using Math Projects. This 64-page book provides exciting individual, partner, and small group projects that promote creative problem-solving. Students compute, read, write, and utilize social and artistic skills with the more than 50 projects. The book supports NCTM standards and aligns with state, national, and Canadian provincial standards.

*Math Projects, Grades 5 - 12* Joyce Stulgis-Blalock, 2011-01-03 Offers math projects that correlate to NCTM standards and specific math concepts, helping teachers to coordinate group and individual projects for their students.
