The Gentle Art of Leadership Brian Donovan, Dean Phelan, 2024-11-12. What makes leaders great? The writing is on the wall. Quantitative and qualitative research indicate they consistently practise a Gentle Art of Leadership. Firsthand analyses of more than six thousand 360-degree feedback reports. Over 50 one-on-one interviews with leaders. Reflections on hundreds of Executive Coaching sessions. Review of over 160 books and articles on leadership. Our own experiences as CEOs. A compelling guide and handbook for anyone in a leadership role. This Gentle Art of Leadership cuts against the grain of the often-held view that great leaders, CEOs, and team coaches are charismatic, extroverted, forceful characters with powerful egos and that we need such big personalities to transform our companies, organisations, sporting teams, and nations. Sometimes this view proves to be true, and we remember such characters. But more often the greatest leaders who leave the greatest legacies have a powerful mixture of personal humility, integrity, and indomitable will for forwarding the health, success, and long-term prosperity of their organisation and people. They seem to get the best out of others by genuinely treating them with dignity and respect whilst focused on strategic outcomes.

What You Really Need to Lead Robert Steven Kaplan, 2015-08-11. WHAT MAKES A LEADER? CAN YOU REALLY LEARN TO LEAD? You might believe that leaders are born, not made. Perhaps you think that you need to hold an important job to be a leader, that you need permission to lead. Leadership is one of the most important aspects of our society. Yet there is enormous disagreement and confusion about what leadership means and whether it can really be learned. As Harvard Business School professor Robert Steven Kaplan explains in this powerful new book, leadership qualities are not something you either have or you don't. Leadership is not a destination or a state of being. Leadership is about what you do rather than who you are, and it starts with an ownership mind-set. For Kaplan, learning to lead involves three key elements: Thinking like an owner, A willingness to act on your beliefs, A relentless focus on adding value to others. Kaplan compellingly argues that great organizations are built around a nucleus of people who think and act with an ownership mind-set. He believes that leadership is not a role reserved only for those blessed with the right attributes or situated in the right positions of power. Leadership is accessible to each of us today. It requires a process of hard work, willingness to ask questions, and openness to learning. This book aims to demystify leadership and outlines a specific regimen that will empower you to build your leadership skills. Kaplan tells real-life stories from his own experience of working with various types of leaders seeking to improve their effectiveness and make their organizations more successful. He asks probing questions, provides exercises, and suggests concrete follow-up steps that will help you develop your skills, create new habits, and move you toward reaching

your unique leadership potential What You Really Need to Lead will help you develop your capacity to lead by unlocking your power to think and act like an owner Fresh Perspectives:Cost and Management Accounting ,2007 Balanced Scorecard Nils-Göran Olve,Anna Sjöstrand,2006-04-24 The fast track route to understanding and implementing the balanced scorecard in your business It covers the key aspects of the balanced scorecard from using it to develop the company s strategy and relating it to existing control systems to setting goals and monitoring progress It gives examples and lessons from some of the worlds most successful businesses including Ricoh Xerox and Ericsson Enterprise and ideas from the smartest thinkers including Robert S Kaplan and David P Norton It includes and glossary of key concepts and a comprehensive resources guide
