Ritual and the Moral Life David Solomon, Ruiping Fan, Ping-cheung Lo, 2012-03-26 In the twentieth century in both China and the West ritual became marginalized in the face of the growth of secularism and individualism. In China Confucianism and its essentially ritualistic comportment to the world were vigorously suppressed during the Cultural Revolution 1966-1976 under Mao Zedong. But de-ritualization already took place as a result of the Chinese Revolution of 1911 under Sun Yat Sen. In the West while the process of de-ritualization has been generally more gradual it has been nonetheless drastic. In contrast to this situation this volume investigates the crucial role ritual plays in constituting the human understanding of their place in the cosmos, the purpose of their lives and imbues human existence with a more complete sense of meaningfulness. This volume presents the work of philosophers from both China and the West as they reflect upon the constitutive role that ritual plays in human life. They reflect not only on ritual in general but also on specific Confucian and Christian appreciations of ritual. This provocative volume is a beacon of warning to Western philosophers who think they have graduated from the trappings of ritual and a beacon of hope for Eastern thinkers who wish to avoid cultural fragmentation. The Editors both Eastern and Western have together created a seamless work that not only introduces ritual but advances an argument for the contribution that ritual makes to cultural renewal. This volume is a work of philosophical thinking about ritual doing but challenges those who think to realize that the salvation of philosophical thinking rests in the particularity and contingency of ritual doing. Let us hope this volume is widely read for it points to that which might renew the West. Jeffrey P. Bishop Saint Louis University

The Early Olmec and Mesoamerica Jeffrey P. Blomster, David Cheetham, 2017-03-21 The Early Formative Olmec are central in a wide variety of debates regarding the development of Mesoamerican societies. A fundamental issue in Olmec archaeology is the nature of interregional interaction among contemporaneous societies and the possible Olmec role in it. Previous debates have often not been informed by recent research and data often relying on materials lacking archaeological context. In order to approach these issues from new perspectives this book introduces readers to the full spectrum of the material culture of the Olmec and their contemporaries relying primarily on archaeological data much of which has not been previously published. For the first time using a standard

lexicon to consider the nature of the interaction among Early Formative societies the authors experts in diverse regions of Mesoamerican art and archaeology provide carefully considered contrasts and comparisons that advance the understanding of the Early Formative origins of social complexity in Mesoamerica The United States Catalog ,1900 **Illustrated Catalogue of Books** A.C.
