Steven,2017-12-21 How did modernist poetry respond both thematically and technically to communism In Red Modernism Mark Steven asserts that modernism was highly attuned and aesthetically responsive to the overall spirit of communism He considers the maturation of American poetry as a longitudinal arc one that roughly followed the rise of the USSR through the Russian Revolution and its subsequent descent into Stalinism opening up a hitherto underexplored domain in the political history of avant garde literature In doing so Steven amplifies the resonance among the universal idea of communism the revolutionary socialist state and the American modernist poem Focusing on three of the most significant figures in modernist poetry Ezra Pound William Carlos Williams and Louis Zukofsky Steven provides a theoretical and historical introduction to modernism s unique sense of communism while revealing how communist ideals and references were deeply embedded in modernist poetry Moving between these poets and the work of T S Eliot Langston Hughes Muriel Rukeyser Gertrude Stein Wallace Stevens and many others the book combines a detailed analysis of technical devices and poetic values with a rich political and economic context Persuasively charting a history of the avant garde modernist poem in relation to communism beginning in the 1910s and reaching into the 1940s Red Modernism is an audacious examination of the twinned history of politics and poetry *The Plebs* ,1922 The Russian Revolution Manabendra Nath Roy,1949 **Defining Russia**

Musically Richard Taruskin,2020-10-06 The world renowned musicologist Richard Taruskin devoted much of his career to helping listeners appreciate Russian and Soviet music in new and sometimes controversial ways Defining Russia Musically represents one of his landmark achievements here Taruskin uses music together with history and politics to illustrate the

many ways in which Russian national identity has been constructed both from within Russia and from the Western perspective He contends that it is through music that the powerful myth of Russia's national character can best be understood Russian art music like Russia itself Taruskin writes has always been tinged or tainted with an air of alterity sensed exploited bemoaned reveled in traded on and defended against both from within and from without The author's goal is to explore this assumption of otherness in an all encompassing work that re-creates the cultural contexts of the folksong anthologies of the 1700s the operas symphonies and ballets of the 1800s the modernist masterpieces of the 1900s and the hugely fraught but ambiguous products of the Soviet period Taruskin begins by showing how enlightened aristocrats reactionary romantics and the theorists and victims of totalitarianism have variously fashioned their vision of Russian society in musical terms He then examines how Russia as a whole shaped its identity in contrast to an East during the age of its imperialist expansion and in contrast to two different musical Wests Germany and Italy during the formative years of its national consciousness The final section focuses on four individual composers each characterized both as a self-consciously Russian creator and as a European and each placed in perspective within a revealing hermeneutic scheme In the culminating chapters Chaikovsky and the Human Scriabin and the Superhuman Stravinsky and the Subhuman and Shostakovich and the Inhuman Taruskin offers especially thought provoking insights for example on Chaikovsky's status as the last great eighteenth century composer and on Stravinsky's espousal of formalism as a reactionary literally counterrevolutionary move
