

Scheme of work – Cambridge O Level Computer Studies (7010)

Overview

This scheme of work provides ideas about how to construct and deliver a course. The syllabus has been broken down into teaching units with suggested teaching activities and learning resources to use in the classroom.

Recommended prior learning

Candidates beginning this course are not expected to have studied Computer Studies or ICT previously.

Outline

Syllabus ref	Unit	Unit title	Content of unit
Section 1.1	1	The range and scope of computer applications	Develop knowledge and understanding of a wide variety of computer applications, including communication and information systems, online services, remote databases, commercial and personal data processing, industrial, technical and scientific uses, monitoring and control systems, automation and robotics, expert systems, education and learning, entertainment and uses of the internet. Consider a standard list of relevant aspects for each computer application studied, in order to be able to comment sensibly on any suggested application and make use of specific relevant examples for illustration.
Section 1.2	2	The social and economic implications of the use of computers	Review the applications studied in Unit 1 to gain a broad knowledge of the economic response for, consequences of, and health and safety aspects of the use of computerised systems; changes in employment and re-training; privacy and integrity of data; data protection legislation; hacking and other computer crime; computer viruses; internet security and usage, security and reliability, including consequences of system failure. Develop critical abilities in listening for benefits and drawbacks of a computerised system to formulate a balanced view of the potential effects of any suggested application or development.
