The Acts of The Apostles G. Campbell Morgan, 2012-02-08 G Campbell Morgan Reprint Series Foreword If it is true that the measure of a person's greatness is their influence not only on his own time but on future generations G Campbell Morgan must be regarded as a great person His greatness is seen not only in the wide impact of his ministry on both sides of the Atlantic but in the fact that his books are still read and studied sixty five years after his death Named one of the ten greatest preachers of the twentieth century by the contributing board of Preaching magazine Morgan made the Bible a new and living book not only to the congregations who listened to him but the vast

multitude of persons who read his books Fox sixty seven years Morgan preached and taught the Scriptures and served churches in England and the United States What is remarkable is that his commentaries and expositions of the Bible still speak to persons of a new millennium There have been many changes in the world since he faithfully preached and taught the Scriptures but the wide appeal of his books testify to the timelessness of his message Although he held pastorates in the Congregational and Presbyterian denominations he had an ecumenical appeal to persons of all denominations and traditions The mystic Thomas Kempis once wrote He to whom the eternal word speaks is delivered from many opinions In one of his sermons he referred to the words of Amos that there would be a famine for hearing the word of God Amos 8 11 The timeless work of G Campbell Morgan addresses that hunger as his books enable his readers to get beyond opinions to the living Word Wipf and Stock Publishers have rendered a great gift to the religious world in reprinting dozens of Morgan's books This growing collection makes his books more available so that readers have an option other than searching the internet for used and often expensive copies Among this collection is the classic *The Great Physician* and commentaries on the Gospel of Matthew and John Persons seeking a living faith and a meaningful encounter with God would profit from reading any of these Morgan books Near the end of his ministry in a sermon entitled *But One Thing* Morgan commented on how Portugal changed the words of a coin after Christopher Columbus discovered America No longer did the inscription say *Ne Plus Ultra* nothing more beyond but *Plus Ultra* more beyond It is the hope of the G Campbell Morgan Trust that the reprinting of these books will bring readers to the more beyond and an even deeper encounter with the Word in Scripture The Morgan Trust Richard L

The Natural History of Ireland William Thompson,1851 *Complex Pleasure* Stanley Corngold,1998 *Complex Pleasure* deals with questions of literary feeling in eight major German writers Lessing Kant Holderlin Nietzsche Musil Kafka Trakl and Benjamin On the basis of close readings of these authors Stanley Corngold makes vivid the following ideas that where there is literature there is complex pleasure that this pleasure is complex because it involves the impression of a disclosure that this thought is foremost in the minds of a number of canonical writers that important literary works in the German tradition fiction poetry critique can be illuminated through their treatment of literary feeling and finally that the conceptual terms for these forms of feeling continually vary The types of feeling treated in *Complex Pleasure* include with the startling perception

of likeness and the disinterested pleasure of aesthetic judgment Hlderlin s swift conceptual grasp in which the tempo of the process of thought is stressed artistic imagination mood sadistic enjoyment rapturous distraction homonymic dissonance and courage as a mode of literary experience At the same time through the deftness range and surprise of its execution the book itself conveys complex pleasure The reader will also find fascinating hitherto untranslated material by Nietzsche On Moods and Kafka important sections from his journals and from his unfinished novel The Boy Who Sank Out of Sight **Senate documents** ,1882 Proceedings ... Sentencing in Time Linda Ross Meyer, 2017-10-27

Exactly how is it we think the ends of justice are accomplished by sentencing someone to a term in prison How do we relate a quantitative measure of time months and years to the objectives of deterring crime punishing wrongdoers and accomplishing justice for those touched by a criminal act Linda Ross Meyer investigates these questions examining the disconnect between our two basic modes of thinking about time chronologically seconds minutes hours or phenomenologically observing taking note of or being aware of the passing of time In Sentencing in Time Meyer asks whether in overlooking the irreconcilability of these two modes of thinking about time we are failing to accomplish the ends we believe the criminal justice system is designed to serve Drawing on work in philosophy legal theory jurisprudence and the history of penology Meyer explores how rather than condemning prisoners to an experience of time bereft of meaning we might instead make the experience of incarceration constructively meaningful and thus better aligned with social objectives of deterring crime reforming offenders and restoring justice
