Outer Continental Shelf Production:

Outer Continental Shelf Production Committee on Energy and Natural Resource, Subcommittee on Water and Power of the Committee on Energy and Natural Resources United States Senate, 2014-11-10 There are currently 26 planning areas in the Outer Continental Shelf 15 in Alaska 4 along the Pacific Coast 3 in the Gulf of Mexico and 4 in the Atlantic Currently only 36 million acres an area only slightly larger than the State of Louisiana itself is actively leased So a very small portion of the Outer Continental Shelf is actively leased only 2 percent of the entire OCS There s a tremendously vast area of the Outer Continental Shelf that should be explored and looked at for what resources it might hold either traditional or non traditional resources whether energy or otherwise Since 1990 our proven reserves have multiplied dramatically each time the government completes a survey Swift new advances in drilling technology are making more of what we find easier to extract More drilling means more energy and more high paying jobs more security more reliability and a stronger economy We need to act and turn this promising potential into a reality Outer Continental Shelf Production United States. Congress.
