Anthropology and the Riddle of the Sphinx Paul Spencer,2025-07-01 Originally published in 1990 Anthropology and the Riddle of the Sphinx Paradoxes of Change in the Life Course seeks to relate the problems of maturation and ageing to the

life course as a whole As it is treated here the riddle posed by the sphinx asks What is it that changes as we age and is concerned with the enigmas of this total process Ultimately the ways in which we experience these problems stem from our view of ageing and the contradictions of society itself The essays in this volume consider aspects of this problem with reference to a variety of cultures The young the mature and the elderly have distinctive identities but they form a continuum whose profile is culturally constructed Anthropology and the Riddle of the Sphinx Paradoxes of Change in the Life Course is intended as a contribution to the growing literature on ageing deliberately broadening the topic in the search for a wider understanding This volume aims to stimulate interest in neglected aspects of the ageing process within social anthropology and to present an anthropological point of view to others who have an interest in problems associated with the life course It will be of particular value to the students of social anthropology and medical sociology It was originally published as part of the ASA Monographs series <https://www.routledge.com/ASA+Monographs/book/series/SE0127>

The Addict's Guide to Everything Sudoku Fiorella Grossi, 2007 **The Software Encyclopedia 2001**, 2001 **Situations Matter** Sam Sommers, 2011-12-29 An entertaining and engaging exploration of the invisible forces influencing your life and how understanding them can improve everything you do The world around you is pulling your strings shaping your innermost instincts and your most private thoughts And you don't even realize it Every day and in all walks of life we overlook the enormous power of situations of context in our lives That's a mistake says Sam Sommers in his provocative new book Just as a museum visitor neglects to notice the frames around paintings so do people miss the influence of ordinary situations on the way they think and act But frames situations do matter Your experience viewing the paintings wouldn't be the same without them The same is true for human nature In *Situations Matter* Sommers argues that by understanding the powerful influence that context has in our lives and using this knowledge to rethink how we see the world we can be more effective at work at home and in daily interactions with others He describes the pitfalls to avoid and offers insights into making better decisions and smarter observations about the world around us

Topologies of the Classical World in Children's Fiction Claudia Nelson, Anne Morey, 2019-10-24 Beginning with Rudyard Kipling and Edith Nesbit and concluding with best selling series still ongoing at the time of writing this volume examines works of twentieth and twenty first century children's literature that incorporate character types settings and narratives derived from the Greco Roman past Drawing on a cognitive poetics approach to reception studies it argues that authors typically employ a limited and powerful set of spatial metaphors palimpsest map and fractal to organize the classical past for preteen and adolescent readers Palimpsest texts see the past as a collection of strata in which each new era forms a layer superimposed upon a foundation laid earlier map texts use the metaphor of the mappable journey to represent a protagonist's process of maturing while gaining knowledge of the self and or the world fractal texts in which small parts of the narrative are thematically identical to the whole present the past in a way that implies that history is infinitely repeatable While a given text may embrace multiple metaphors in presenting the

past associations between dominant metaphors genre and outlook emerge from the case studies examined in each chapter revealing remarkable thematic continuities in how the past is represented and how agency is attributed to protagonists each model it is suggested uses the classical past to urge and thus perhaps to develop a particular approach to life

Ecstasy, Catastrophe David Farrell Krell, 2015-08-01 Lectures on ecstatic temporality and on Heidegger s political legacy In *Ecstasy Catastrophe* David Farrell Krell provides insight into two areas of Heidegger s thought his analysis of ecstatic temporality in *Being and Time* 1927 and his political remarks in the recently published *Black Notebooks* 1931 1941 The first part of Krell s book focuses on Heidegger s interpretation of time which Krell takes to be one of Heidegger s greatest philosophical achievements In addition to providing detailed commentary on ecstatic temporality Krell considers Derrida s analysis of ekstasis in his first seminar on Heidegger taught in Paris in 1964 1965 Krell also relates ecstatic temporality to the work of other philosophers including Aristotle Augustine Kant Schelling Holderlin and Merleau Ponty he then analyzes Dasein as infant and child relating ecstatic temporality to the mirror stage theory of Jacques Lacan The second part of the book turns to Heidegger s *Black Notebooks* which have received a great deal of critical attention in the press and in philosophical circles Notorious for their pejorative references to Jews and Jewish culture the *Notebooks* exhibit a level of polemic throughout that Krell takes to be catastrophic in and for Heidegger s thought Heidegger s legacy

therefore seems to be split between the best and the worst of thinking somewhere between ecstasy and catastrophe Based on the 2014 Brauer Lectures in German Studies at Brown University the book communicates the fruits of Krell s many years of work on Heidegger in an engaging and accessible style
