Rien De Personnel:

, The Unconscious in Philosophy, and French and European Literature Fernand Vial, 2009-01-01 This book traces the idea of the unconscious as it emerges in French and European literature It discusses the functioning of the normal unconscious mind and provides examples of the abnormal unconscious in poems and literature Psychiatric cases as they are understood today are illustrated as mirrored in literature describing the functioning of the disturbed mind **Conference Internationale Du Travail**, 1926 **Studies in French Poetry of the Fifteenth Century** C.S. Shapley, 2012-12-06 My purpose in these studies is to example a careful reading of the too easily despised too hastily evaluated and too frequently misunderstood poetry of the French fifteenth century I have begun at the turn of the century with three of the more substantial writers of the first generation Nesson Char tier Taillevent and while I have in each case read the poet's entire work I have tried to concentrate my efforts on the single poem which seemed his most substantial in terms of the number and importance of the concerns which animate it the vigor and complexity of his response and the expressive richness of the poem as a whole I have tried in each instance to say only what seemed most relevant and essential not with respect to any preconceived system but by allowing the categories of my treatment to arise out of a full and extended response to the work itself When one interrogates a poem in terms of pre-established categories one is all too apt to find what one is seeking and to find only that **Corinne, Or, Italy** Madame de Staël (Anne-Louise-Germaine), 1857 **Irony and Satire in French Literature** Philippe Desan, 2024-10-07 *Pratiquer la Mindfulness basée sur la Compassion et l'Insight (MBCI) en 34 fiches* Pascal Delamillieure, Francis Gheysen, 2020-09-01 La Mindfulness Basée sur la Compassion et l'Insight MBCI est une nouvelle approche psychothérapeutique de 3e vague destination des patients souffrant entre autres de troubles anxieux et de pensées et de manière plus générale de difficultés gérer les émotions ou le stress La MBCI intègre trois dimensions essentielles la mindfulness ou pleine conscience rencontre des pratiques de méditation et des neurosciences qui permet d'être davantage conscient de son propre fonctionnement et de celui du monde la compassion qui se définit comme le fait de se connecter sa propre souffrance et celle des autres avec un engagement profond pour la soulager et la prévenir Elle nous aide reconnaître nos vulnérabilités et aborder les émotions et les sentiments difficiles comme la colère la honte la culpabilité et l'autocritique l'insight ou introspection qui se définit comme la capacité percevoir plus facilement son monde intérieur et les conflits qui peuvent exister entre les différentes parties de soi-même préalable indispensable une évolution thérapeutique tournée vers le changement Après la partie théorique se finissant sous forme de fiches synthétiques et progressives ce que sont ces processus leurs effets sur la santé et leurs indications l'ouvrage aborde la pratique méditative et propose le programme complet de la MBCI session par session avec les méditations guidées au format audio disponibles en ligne Ce livre s'adresse tous les professionnels de santé en formation initiale et tous les psychiatres psychologues psychothérapeutes désireux de s'intéresser cette approche psychothérapeutique novatrice *Pères saints et culte chrétien dans l'Eglise des premiers siècles* Victor

Knutsen,2016-12-14 States of Decadence is a two volume anthology that focuses on the literary and cultural

phenomenon of decadence Particular attention is given to literature from the end of the 1800s the fin de siècle however the essays presented here are not restricted to this historical period but draw lines both back in time and forward to our day to illuminate the contradictory multiplicity inherent in decadence Furthermore the essays go beyond literary studies drawing on a number of the tropes and themes of decadence manifested in the arts and culture such as in music opera film history and even jewelry design Volume 2 comprises essays on the following thematic areas Images of Decadent Women Transmedia Decadence Contemporary Decadence and Poetic Decadence The contributors are part of an active network of international scholars from many different countries As the expansive title of the volume suggests they explore the decadent aesthetic approach to the arts to culture and to a worldview that juxtaposes a strange mixture of conservatism and rebellion ambivalence and deep convictions

Voices of Conscience Nicole Reinhardt, 2016-09-29 *Voices of Conscience* analyzes how the link between politics and conscience was articulated and shaped throughout the seventeenth century by confessors who acted as counsellors to monarchs Against the backdrop of the momentous intellectual theological and political shifts that marked this period the study examines comparatively how the ethical challenges of political action were confronted in Spain and France and how questions of conscience became a major argument in the hegemonic struggle between the two competing Catholic powers As Nicole Reinhardt demonstrates counsel of conscience was not a peripheral feature of early modern political culture but fundamental for the definition of politics and conscience Tracing the rise and fall of confessors as counsellors reveals the parallel transformation of both approaching a historical understanding of the modernisation of politics with the idea of an individual conscience at its heart Placed at the junction of norms and practices royal confessors directly or in oblique reflection shaped the ways in which the royal conscience was identified and scrutinized By the same token the royal confessors expertise and activities remained a source of anxiety and conflict that triggered wide debate on the relationship between State and Church religion and politics The notion of counsel of conscience of which this book provides the first in depth analysis allows the reader to re examine and challenge fundamental historical paradigms such as the emergence of absolutism individualisation and the division of public and private Putting theological concepts and religious dimensions back into political theory and practice sheds new light not only on the importance of counselling for early modern statecraft but also on the reconfiguration of the normative frameworks underlying it
