The Smarter, Greener & Cheaper alternative to Canned Air!

The O2 Hurricane Canless Air system is a simple, innovative product that offers a completely new alternative to expensive canned air. The O2 Hurricane blows air at over 320km/h, which provides a very suitable alternative to expensive cans of air in almost all situations. In fact, when fully charged, the unit will operate for over 10 minutes continuously, which is the equivalent of more than twenty five charged cans of air.

All O2 Hurricane units are completely free of chemicals, and most importantly, can be used at **any angle**.

The O2 Hurricane Canless Air System

The O2 Hurricane is a simple, innovative idea that has become an affordable revolution against traditional canned air. This product is an inexpensive, permanent and environmentally friendly alternative to canned air dusters and boasts more continuous power than its canned competitors. Purchase one nontoxic Canless Air System and you will never need to buy another can of air again.

Canless Air?

Looking for free, safe and environmentally responsible Air in a Can? You have found it.

When it comes to pure cleaning power, canned air dusters are simply no match for the Canless Air system. To use canned air you must only shoot short bursts of air and the can must be kept upright for it to work. Turn canned air or computer dusters at an angle and you end up with ice and the device stops functioning. You can even suffer frostbite when using traditional air in a can. If you cannot turn the can sideways or upside down how can you clean those hard to reach areas?

The Canless Air O2 Hurricane can be turned sideways, upside down, or any angle that is needed to power clean hard to reach crevices. Plus, you can use the Canless system in a sustained manner for deep cleaning, and since no chemicals are used there is no chance of frostbite. The Canless Air compressed air duster more powerful and better able to reach hard clean to areas than traditional air dusters, computer cleaners and can air solutions.
