Biblical Scholarship and the Church Allan K. Jenkins, Patrick Preston, 2016-04-15 Conflicting claims to authority in relation to the translation and interpretation of the Bible have been a recurrent source of tension within the Christian church and were a key issue in the Reformation debate This book traces how the authority of the Septuagint and later that of the Vulgate was called into question by the return to the original languages of scripture and how linguistic scholarship was seen to pose a challenge to the authority of the teaching and tradition of the church It shows how issues that remained unresolved in the early church re emerged in first half of the sixteenth century with the publication of Erasmus Greek Latin New Testament of 1516 After examining the differences between Erasmus and his critics the authors contrast the situation in England where Reformation issues were dominant and Italy where the authority of Rome was never in question Focusing particularly on the dispute between Thomas More and William Tyndale in England and between Ambrosius Catharinus and Cardinal Cajetan in Italy this book brings together perspectives from biblical studies and church history and provides access to texts not previously translated into English *Jamieson, Fausset, and Brown Commentary on the Whole Bible, Deluxe Edition* Jamieson, Fausset, and Brown, This is the Deluxe Edition of Jamieson Fausset and Brown s Commentary It is a verse by verse account of the Bible with great scholarly insight and attention to the historic teachings of Orthodox Christianity It has great attention to detail while bringing clarity to the full meaning and inferences of words verses and passages offering an in depth understanding of the Bible Though detailed it is not overly technical making it one of the core books for ministers and laity alike This four volume set is well known for its scholarship and accurate understanding of the Scriptures C H Spurgeon s opinion of the work was so great that he said It contains so great a variety of information that if a man had no other exposition he would find himself at no great loss if he possessed and used it diligently Some of its key features are An introduction to each book of the Bible supplying a complete summary of the context An in depth understanding of the original biblical languages making comparison to modern language easy Extensive cross referencing throughout the text linking passages and their meanings Exposition of words and phrases in boldface enabling quick definition An easy to follow format Published by Delmarva Publications this handsome one volume has all of the 9 volumes of the commentary included It has an easy to read typeface and includes a well organized layout providing ease of transition from passage to passage Its interior style matches its cover providing continuity and an attractive combination All volumes have a linked table of contents to help you quickly and easily navigate to your desired scripture It has been proofread many times to make it one of the most accurate e text versions available **Justification and the Law** Robbert A. Veen, 2006 The third and final book in a series on the meaning of the Torah for Christian ethics In this book Dr Robbert Veen explores the reasons behind the rejection of the role of the Torah in dogma history The doctrine of justification by faith in its Protestant and later in its evangelical shape contributed to the downfall of the Torah in Protestant ethics In the Mennonite version of the doctrine things look a little

better The other two books in the series are Fulfillment of the Law and The End of the Law **Wrong-Doing, Truth-Telling** Michel Foucault, 2014-06-04 Three years before his death Michel Foucault gave a series of lectures at the Catholic University of Louvain that have remained relatively unknown until only recently Entitled Wrong Doing Truth Telling these lectures provides the missing link between Foucault's early work on sexuality and punishment and his later work on Greek and Roman antiquity Ranging broadly from Homer to the 20th century Foucault traces how the early ethical acts of truth telling in ancient Greece gradually metamorphosed into acts of self incrimination in monastic times and ultimately into the birth and rise of psychiatry as the foundation of modern penology criminology and criminal justice For Foucault self incrimination no longer did the work necessary to quell justice because by the 19th century we wanted to know more than just the fact of wrongdoing we wanted to know who the criminal was not just whether the accused committed the crime but what it was about him that made him commit the crime An avowal of wrong doing was no longer sufficient psychiatric expertise was now necessary and that development marks the birth of discipline and modern criminal justice made so famous by Foucault **A Life in Letters** Simone Weil, 2024 The first complete English language collection of Simone Weil's letters to her loved ones A Life in Letters deepens appreciation of one of the twentieth century's great thinkers by offering insight into her relationships spiritual and occupational experiments political commitments restless mobility and wide ranging interests **Francis of Assisi - The Prophet: Early Documents, vol. 3** Regis J. Armstrong, J. A. Wayne Hellmann, William J. Short, 1999 The Prophet is the third volume in this extraordinary series of the writings of Saint Francis and those of the early Franciscan witnesses and it will be of estimable value to scholars students and lovers of Il Poverello as well a scholarly achievement done in the service of history theology and spirituality Lawrence Cunningham **Remarks on the Revised English Version of the Greek New Testament** Benjamin Wills Newton, 1881 **The Earliest English Translation of the First Three Books of the De Imitatione Christi** John Kells Ingram, 1893 **Religious Life** Loan Le, 2016-06-22 Following the Second Vatican Council when each Religious Institute was encouraged to research its charism some Institutes experienced a tension between their charism and their mission or even difficulty identifying what their charism was This book is a study of the theological understanding of charism and of mission in relation to Religious Life within the Catholic Church While this topic has featured in much Roman Catholic theological literature since Vatican II there appears to be a dearth of in depth studies This book addresses this apparent lacuna It draws particularly on the work of two major theologians Jean Marie Roger Tillard OP and Sandra Marie Schneiders IHM who have reflected at length on charism and mission in the period leading up to Vatican II and on the implementation of its documents with respect to Religious Life The very significant contributions of Tillard and Schneiders on the topic provide Religious as well as others who want to know and understand Religious Life with an interesting and motivating insight into charism and mission in Religious Life Within the Roman Catholic Church a Year of Consecrated Life has just drawn to a close and this book forms a background and a

response to Pope Francis Apostolic Letter to all Consecrated People on the occasion of the Year of Consecrated Life November 2014 which invited Religious to reflect on these aspects that are essential to the life they have chosen to live
