Obesity Report Us Prevalence:

Obesity Epidemiology Frank Hu, 2008-03-21 During the past twenty years there has been a dramatic increase in obesity in the United States. An estimated thirty percent of adults in the US are obese in 1980 only fifteen percent were. The issue is gaining greater attention with the CDC and with the public health world in general. This book will offer practical information about the methodology of epidemiologic studies of obesity suitable for graduate students and researchers in epidemiology and public health practitioners with an interest in the issue. The book will be structured in four main sections with the majority of chapters authored by Dr Hu and some authored by specialists in specific areas. The first section will consider issues surrounding the definition of obesity measurement techniques and the designs of epidemiologic studies. The second section will address the consequences of obesity looking at epidemiologic studies that focus on cardio vascular disease diabetes and cancer. The third section will look at determinants obesity reviewing a wide range of risk factors for obesity including diet physical activity and sedentary behaviors sleep disorders psychosocial factors physical environment biochemical and genetic predictors and intrauterine exposures. In the final section the author will discuss the analytical issues and challenges for epidemiologic studies of obesity. *Morbidity and Mortality Weekly Report*, 2009-07 Public health reports, 2002 *Obesity Interventions in Underserved Communities* Virginia M. Brennan, Shiriki K. Kumanyika, Ruth Enid Zambrana, 2014-12-08 Groundbreaking approaches to preventing and reducing obesity among minority low income and other medically underserved communities in the United States. The obesity epidemic has a disproportionate impact on communities that are hard hit by social and economic disadvantages. In *Obesity Interventions in Underserved Communities* a diverse group of researchers explores effective models for treating and preventing obesity in such communities. The volume provides overviews of the literature at specific junctures of society and health e.g the effectiveness of preschool obesity prevention programs as well as commentaries that shape our understanding of particular parts of the obesity epidemic and field reports on innovative approaches to combating obesity in racial ethnic minority and other medically underserved populations in the United States. Authors make specific recommendations to policy makers which are designed to reverse the rising rate of obesity dramatically. The thirty one literature reviews commentaries and field reports collected here address obesity prevention and treatment programs implemented across a spectrum of underserved populations with particular attention paid to children and adolescents. Aimed at students clinicians and community workers in public health and health policy as well as family medicine and pediatrics sociology childhood education and nutrition and deeply informed by fieldwork this book demonstrates the importance of taking a full contextual view both historical and current when considering the challenge of reversing upward obesity trends among ethnic minorities impoverished people and other underserved populations.
