Occurrence In The Immediate Unreality:

Occurrence in the Immediate Unreality Max Blecher, 2009 In childhood Blecher suffers crises of unreality and an eerie stage is set for a future of unsettling characters and events This autobiographical fiction offers an account of Blecher's ambiguous dream like experiences of sexual awakening as an adolescent

Temporalities of Modernism Carmen Borbély, Erika Mihálycsa, Petronia Petrar, 2023-03-22 Temporalities of Modernism gathers fourteen scholars whose contributions readdress the very tenets of modernism by approaching its multifaceted relationship with time in a series of fresh and original essays The contemporary energies behind the collection are rooted in the turbulence of the modernist age: relativity, irreversibility, duration, fragmentation, contingency and the looming threat of the apocalyptic future The collection includes geographical areas often neglected by the habitual reduction of modernist studies to English speaking literary high modernism or to the concentration of famous figures in the traditional capital of modernism Paris Thus it offers detailed presentations of Italian pre WWI modernism, Czech Dadaism or of Polish, Romanian and Hungarian writers and artists The borders also open in terms of genres and mediums as the contributions are not limited to fiction but examine the multifaceted productions of modernist artists: poetry, theatre, painting, music, cinema, photography etc In addition the limits are temporally stretched out as some contributions focus on more recent writers such as Sylvia Plath and their reactivation of modernist discoveries

Power and Literature Florin Oprescu, 2018-08-21 At the core of this book lies the relation between Power as socio-political phenomenon and the novel as literary discourse It shows that in a society facing the excess of power in its various forms, novelistic fiction mediates knowledge about societal Power structures and uses specific strategies to subvert and denounce them The first part of the study is theoretical; it presents some of the most prominent theories of Power from Plato, Machiavelli, Nietzsche to Weber, Dahl, Lukes, Parsons, Bourdieu or Foucault After offering a critical approach to the concepts of Power defined in the social, political and philosophical fields, it articulates the relations of Power imprinted in literary discourse within a typology of four categories In the second part of the book, this taxonomy of Power is applied to four key novels in the context of Romanian literary crossroads, showing how novelistic fiction not only assumes a critical and subversive position against the excess of Power but also unveils our fragility when experiencing History

Redes sin causa Lovink, Geert, 2016-12-20 Con la gran mayoría de los usuarios de Facebook atrapados en un frenesí de friending, liking y commenting en cualquier momento podemos desconectar para comprender las consecuencias de nuestras infosaturadas vidas. ¿Qué nos obliga a participar tan diligentemente con los sistemas de redes sociales? *Redes sin causa* examina nuestra obsesión colectiva con la identidad y la autogestión junto con la fragmentación y la información de sobrecarga en la cultura contemporánea en línea. Con escasez de teoría sobre las consecuencias sociales y culturales de los servicios en línea más populares, Lovink ofrece un análisis crítico pionero de nuestro sobrevalorado mundo en red a partir de estudios de casos en los motores de búsqueda, video online, blogging, radio digital, activismo en los medios y la saga de Wikileaks. Este

libro ofrece un poderoso mensaje a profesionales de los medios y a los teóricos colectivamente vamos a dar rienda suelta a nuestra capacidad crítica para influir en el diseño de la tecnología y en los espacios de trabajo si no queremos desaparecer en la nube. Incisivo pero nunca pesimista. Lovink partiendo de su larga experiencia en la investigación de medios de comunicación nos ofrece una crítica de las estructuras políticas y poderes conceptuales incluidos en las tecnologías que dan forma a nuestra vida cotidiana.

Beyond the New Romanian Cinema Andrei Gorzo, Veronica Lazăr, 2023-06-01 A stellar representative of the New Romanian Cinema Radu Jude also belongs to a select group of politically minded East European filmmakers who have taken as their subject the nature of the media and the circulation of images. Vertov and Eisenstein. Dušan Makavejev the Ukrainian documentarian Sergei Loznitsa. For that reason Andrei Gorzo and Veronica Lazăr's *Beyond the New Romanian Cinema: Romanian Culture History and the Films of Radu Jude* is both welcome and essential. J. Hoberman author of *The Red Atlantis: Communist Culture in the Absence of Communism*. *Beyond the New Romanian Cinema: Romanian Culture History and the Films of Radu Jude* delivers what it promises in its title and offers more. It locates Radu Jude's films against the backdrop of the New Romanian Cinema, a phenomenon which put Romanian cinema on the map of European and world cinema, arguing that Jude overcame a certain sterility and timidity of this movement by creating a very rich and versatile body of work comprising films of different genres and formats. At the same time as offering a meticulous and thought provoking analysis of Jude's films, the authors use them to explore the strengths and limitations of the auteurist paradigm both in Romania and more widely. Ewa Mazierska, Professor of Film Studies, University of Central Lancashire. This impressive study of filmmaker Radu Jude is invaluable not only for its acute critical observations but also for its intelligent informed commentary on Romanian cinema culture and society in general. I learned something important on virtually every page. Highly recommended. James Naremore author of *The Magic World of Orson Welles: Acting in the Cinema* and *On Kubrick*. Andrei Gorzo and Veronica Lazăr offer a comprehensive and refined analysis of the films of Radu Jude, a filmmaker who has emerged with one of the most uncompromising voices ranging from the farcical macabre political satire to a philosophical interrogation of representation and who has addressed the most daring topics after the first wave of the so-called New Romanian Cinema. The monograph manages to combine a wide angle film historical and cultural perspective with an in depth investigation unravelling the ways in which Jude's cinema is updating the legacy of European modernism in order to engage with pressing issues of Romanian culture and history. Gábor Peth, Professor of Film Studies, Sapientia Hungarian University of Transylvania.

The Collected Papers of Bertrand Russell, Volume 7 Elizabeth Ramsden Eames, 2024-08-01 This volume provides a historical introduction in the writing of the manuscript *Theory of Knowledge* The 1913 Manuscript is the only book length work on epistemology that Russell left unpublished in its original form and its publication here is an important addition to knowledge of Russell's thought

Dreams, Neuroscience, and Psychoanalysis Keramat Movallali, 2017-02-03 Dreams Neuroscience and Psychoanalysis sets out to give a scientific consistency to the question of time and find out how time determines brain functioning Neurological investigations into dreams and sleep since the mid 20th century have challenged our scientific conception of living beings On this basis Keramat Movallali reviews the foundations of modern neurophysiology in the light of other trends in this field that have been neglected by the cognitive sciences trends that seem to be increasingly confirmed by recent research The author begins by giving a historical view of fundamental questions such as the nature of the living being according to discoveries in ethology as well as in other research especially that which is based on the theory of the reflex It becomes clear in the process that these findings are consistent with the question of time as it has been considered in some major contemporary philosophies This is then extended to the domain of dreams and sleep as phenomena that are said to be elucidated by the question of time The question is then raised can dreaming be considered as a drive Based on the Freudian discovery of the unconscious and Lacan's teachings Movallali seeks to provide a better understanding of the drives in general and dreams in particular He explores neuroscience in terms of its development as well as its discoveries in the function of dreaming as an altered mode of consciousness The challenge of confronting psychoanalysis with neuroscience forces us to go beyond their division and opposition Psychoanalysis cannot overlook what has now become a worldwide scientific approach Neuroscience just like the cognitive sciences will be further advanced by acknowledging the desiring dimension of humanity which is at the very heart of its being as essentially related to the question of time It is precisely this dimension that is at the core of psychoanalytic practice Dreams Neuroscience and Psychoanalysis will appeal to psychoanalysts and psychoanalytic psychotherapists as well as neuroscientists psychologists ethologists philosophers and advanced students studying across these fields

Theory of Knowledge Bertrand Russell, 2013-04-15 *Theory of Knowledge* gives us a picture of one of the great minds of the twentieth century at work It is possible to see the unsolved problems left without disguise or evasion Historically it is invaluable to our understanding of both Russell's own thought and his relationship with Wittgenstein
