The Genesis Race Will Hart, 2003-10-24 Shows that Earth was

visited by an extraterrestrial race who bioengineered modern man in its image and taught man how to construct the pyramids Examines the flaws in Darwin s theory of evolution and presents startling new evidence of intelligent intervention Reveals the messages coded in the pyramids left by the ancients concerning impending Earth changes at the end of the Mayan calendar For millennia the development of humanity showed a consistent homogenous pattern Then suddenly around 3000 B C E great civilizations sprang up around the globe All the creation myths of these civilizations tell of gods who came down to Earth and fashioned man in their own image teaching them the arts of agriculture and civilized life In addition the dominant architectural design in Egypt Sumeria Peru Mexico and China was the pyramid though science has never been able to explain why or where these peoples obtained the advanced technological knowledge to construct such edifices The abruptness and similarities of these evolutionary leaps calls into question the Darwinian theory of evolution given that there are no traces of any intermediate evolutionary forms Now using the most current research on DNA Will Hart shows that these gods were actually visitors from other worlds who genetically engineered modern humanity from the beings that then inhabited the planet He also suggests that the Bible and other creation stories have been interpreted falsely as myth when they should have been read as history The structures left by our ancestors were designed in accordance with precise astronomical and geodetic alignments to make them visible from outer space and to survive for thousands of years with the intent of communicating information relating to physical and temporal events Humanity s current stage of development has finally reached the point where the secret messages of these structures can be decoded to reveal the fate of humanity in the coming Earth changes

Origins and the Next 50 Years Robert Shapiro,1997-01-01 The accounts given by

extraterrestrials in this volume are about events that occurred in our solar system many millions of years ago In that ancient time the solar system consisted of four planets and four radior systems that orbited the central sun The four planets of the solar system are known today as Venus Earth Mars and a now totally shattered world that was called Maldec The term radior applies to the astronomical bodies we presently call Jupiter Saturn Uranus and Neptune The original satellites of these radiars are generally called moons by Earth astronomers but the extraterrestrials prefer to call them planetoids This book reflects the personal views of a number of different types of extraterrestrials regarding the state of the local solar system and the state of the Earth

God Gametes and The Planet of the Butterfly Queen Robert Jameson,2010-02-08 The God Gametes theory is a refreshing look at what may be both the meaning of life and the reason for its creation It argues that life on earth and in fact our human consciousness are universal entities A model is presented that assumes our universe is a tiny part of a multiverse arguing that the multiverse is a hierarchical structure each level a reproductive system of intelligent living systems on the next higher level We take a fictional look at our parent species on that next higher level to find they are far more complex creatures than us but their universe is older and will soon run out of fuel to then die Parent species know that to preserve their life and the billions of years of heritage they created they must reproduce on a lower multiverse level This we believe is why humans have developed many features such as a large brain that make our survival on earth more difficult Yet these features have evolved because they are needed by the reproductive system of the parent species from lulu com

The Atlantis Blueprint Colin Wilson,Rand Flem-Ath,2008-12-10 A spellbinding blend of history and science scholarship and speculation this landmark work presents startling new evidence that traces archaeology s most enduring mysteries back to the lost civilization of Atlantis The Great Pyramid Stonehenge Machu Picchu For centuries these and other sacred sites have inspired wonder among those who ponder their origins Conventional science tells us they were constructed by local peoples working with the primitive tools of a fledgling civilization But these megaliths nonetheless continue to attract pilgrims scholars and adventurers drawn by the possibility that their true spiritual and technological secrets remain hidden Who could have built these elaborate monuments How did they do it And what were their incomprehensible efforts and sacrifices designed to accomplish Now comes a revolutionary theory that connects these mysteries to reveal a hidden global pattern the ancient work of an advanced civilization whose warnings of planetary cataclysm now reverberate across one hundred millennia International bestselling author Colin Wilson and Canadian researcher Rand Flem Ath join forces to share startling evidence of a fiercely intelligent society dating back as much as 100 000 years one that sailed the oceans of the world building monuments to preserve and communicate its remarkable wisdom The Atlantis Blueprint is their term for a sophisticated network of connections between these sacred sites that they trace to Atlantis a sophisticated maritime society that charted the globe from its home base in Antarctica until it was obliterated by the devastating global changes it anticipated but could not escape Here is adventure to realms beyond our imaginings to shifting poles changing latitudes into the world of ancient mariners who recharted the globe to astonishing discoveries about our ancestors Here are the great mysteries the incredibly complex geography of the Temple of Luxor the startling sophistication of Egyptian science and math and tantalizing similarities among the Hebrew Greek and Mayan alphabets to the Chinese lunar zodiac The Atlantis Blueprint opens up a

Earth's Galactic History and Its Extraterrestrial Connection Constance Victoria Briggs, 2023-11-01. Constance Victoria Briggs who brought us *The Moon's Galactic History: A Look at the Moon's Extraterrestrial Past and Its Connection to Earth* continues her exploration into our cosmic connections with her companion book *Earth's Galactic History and Its Extraterrestrial Connection*. In this exciting new work, Briggs examines current research, theories and evidence linking Earth and extraterrestrials past and present. Some of the topics that Briggs covers include whether the Earth was terraformed by advanced extraterrestrials, the theory that the Earth was seeded with life by otherworldly beings, possible extraterrestrial involvement in the creation of humans and more. She looks at evidence of humans being visited by beings from other worlds and explores the idea that there was once a battle for Earth. She brings us signs, signals, messages and clues showing evidence that extraterrestrials are trying to communicate with humans and takes us on a journey beneath the oceans where there is believed to be an extraterrestrial presence. Briggs also investigates the possibility that otherworldly beings may be residing inside inner Earth. She delves into how extraterrestrials may be visiting Earth via stargates and portals using what she refers to as the cosmic freeway. Briggs also examines the possibility that there are extraterrestrials living among us, who they are and what their goals may be when it comes to Earth. Extraordinary events believed to be related to extraterrestrials are also revealed. Briggs takes a look at current research into the UFO, UAP, USO phenomena, detailing descriptions of these enigmatic objects and witness reports. She talks about the possibility of there being an authoritative hierarchy within our galaxy that may include otherworldly federations and groups that are responsible for a galactic community. In the end, Briggs ponders humankind's spacefaring future, looking at the latest information and trends on space travel and what we have to look forward to by way of our expansive universe.

At the close of this 75,000-year major cycle, a New World is about to be born. The memories and higher faculties of certain individuals are just today returning to them, and they are beginning to recall the purpose of their incarnation, their duty to humanity and to planet Earth. They are becoming aware of the close attendance of legions of incorporeal divine emissaries, the exalted ranks to which they inherently belong. They are remembering that they are an essential part of a vast collective effort and tremendously important task, the scope of which stretches back across millions of years and a myriad of past lifetimes upon Earth and elsewhere, all geared toward the forthcoming and conclusive glory. In their remembrance, they are perceiving that they are about to realise the grand consummation of a vital phase of the Divine Plan for Earth, the solar system and beyond. The Servers are awakening, and they are taking up their positions as agents of the New Spirit in order to play an active role within today's expanding world consciousness around the planet.
