Own The Podium Report:

Sport Policy in Canada Lucie Thibault, Jean Harvey, 2013-12-17 Sport Policy in Canada provides the first and most comprehensive analysis of the new Canadian Sport Policy adopted in 2012 In light of this new policy the authors top scholars in the field provide detailed accounts of the most salient sport policies and programs while also discussing issues and challenges facing policy makers In Canada and around the world the last decades have known a sharp increase in state intervention and public funding in pursuit of medals on the international stage and in support of a more active lifestyle Governments at all levels have made substantial investments in hope of hosting major sporting events to benefit from the economic impact and gain international prestige The study of sport policies often neglected in the past is becoming an increasingly important research topic Sport Policy in Canada seeks to fill this void by offering the most comprehensive analysis of sport policy since Macintosh Bedeck and Franks Sport Policy in Canada 1987 Published in English Routledge Handbook of Drugs and Sport Verner Møller, Ivan Waddington, John Hoberman, 2015-06-19 Doping has become one of the most important and high profile issues in contemporary sport Shocking cases such as that of Lance Armstrong and the US Postal cycling team have exposed the complicated relationships between athletes teams physicians sports governing bodies drugs providers and judicial systems all locked in a constant struggle for competitive advantage The Routledge Handbook of Drugs and Sport is simply the most comprehensive and authoritative survey of social scientific research on this hugely important issue ever to be published It presents an overview of key topics problems ideas concepts and cases across seven thematic sections which include chapters addressing The history of doping in sport Philosophical approaches to understanding doping The development of anti doping policy Studies of doping in seven major sports including athletics cycling baseball and soccer In depth analysis of four of the most prominent doping scandals in history namely Ben Johnson institutionalized doping in the former GDR the 1998 Tour de France and Lance Armstrong WADA and the national anti doping organizations Key contemporary debates around strict liability the criminalization of doping and zero tolerance versus harm reduction Doping outside of elite sport in gyms the military and the police With contributions from many of the world s leading researchers into drugs and sport this book is the perfect starting point for any advanced student researcher policy maker coach or administrator looking to develop their understanding of an issue that has had and will continue to have a profound impact on the development of sport Gender-Based Violence in Children's Sport Gretchen Kerr, 2022-10-28 This book addresses the major forms of Gender Based Violence GBV in children s sport including sexual physical and psychological violence and neglect It reviews the historical sociocultural and political influences on violence towards children and sets out future agendas for research and practice to eliminate GBV in sport The book argues that for GBV to occur and be sustained over time it must be facilitated by a system that enables this violence protects the perpetrator disables bystanders silences the victims and or fails to provide a structure by which to address victims or bystanders concerns

Drawing on empirical research from across a range of disciplines including sport sociology sport psychology developmental psychology and coaching and examining real life case studies of GBV in sport at all levels the book makes a powerful case for radical change in our current systems of sport governance safeguarding and athlete welfare This is important reading for any student researcher policy maker coach welfare officer or counsellor with an interest in sport gender studies safeguarding criminology or sociology An electronic version of this book is freely available thanks to the support of libraries working with Knowledge Unlatched KU KU is a collaborative initiative designed to make high quality books Open Access for the public good The Open Access ISBN for this book is 9781003035138 More information about the initiative and links to the Open Access version can be found at www.knowledgeunlatched.org Adapted sports: wheeled-mobility, exercise and health
