Riding The Centaur:

The Mystery of Everyday Life Andrew W. Metcalfe, Ann Game, 2002 This remarkable book takes a fresh look at life as a process not an end encouraging readers to look for the meaning of life not in terms of achievement or others opinions but in the everyday joys of living From the Preface It is easy to become attached to goals Goals promise certainty and the anxiety they induce only makes their achievement seem more meritorious The trouble is that goals even worthy ones remove our sense of proportion and our sensitivity to what is happening around us It sometimes takes a fall to bring us back into the present Where have I been What have I been doing all my life We awaken to the world as if for the first time We have written this book out of an increasing sense of the importance of these moments Once you recognise life as a gift rather than an achievement you realise that meaning in life is found only in the vitality of the social relations in which we participate

Theorizing Animals Nik Taylor, Tania Signal, 2011-04-21 Utilising ideas from post modernism and post humanism this book challenges current ways of thinking about animals and their relationships with humans Including contributions from across the social sciences the book encourages readers to reflect upon taken for granted ways of conceptualising human relationships with animals It will be of interest to those in the broad field of human animal studies as well as those within most social science and humanities disciplines including sociology anthropology philosophy and social theory
