*From Notes to Narrative* Kristen Ghodsee, 2016-05-10

Ethnography centers on the culture of everyday life So it is ironic that most scholars who do research on the intimate experiences of ordinary people write their books in a style that those people cannot understand In recent years the ethnographic method has spread from its original home in cultural anthropology to fields such as sociology marketing media studies law criminology education cultural studies history geography and political science Yet while more and more students and practitioners are learning how to write ethnographies there is little or no training on how to write ethnographies well From Notes to Narrative picks up where methodological training leaves off Kristen Ghodsee an award winning ethnographer addresses common issues that arise in ethnographic writing Ghodsee works through sentence level details such as word choice and structure She also tackles bigger picture elements such as how to incorporate theory and ethnographic details how to effectively deploy dialogue and how to avoid distracting elements such as long block quotations and in text citations She includes excerpts and examples from model ethnographies The book concludes with a bibliography of other useful writing guides and nearly one hundred examples of eminently readable ethnographic books

Adler,Peter Adler,Patrick K. O'Brien,2012-02-28 *Drugs and the American Dream* presents an up to date anthology of chiefly contemporary readings that explore the myriad sociological correlates of licit and illicit drug use in the United States Unique approach to the topic that offers an organizing theme of sociological concepts age social class ethnicity gender as well as societal response to drug use including drug education treatment and policy The book is interdisciplinary in terms of approach making it useful in a variety of contexts Includes a wide array of ethnographic articles that place reader directly into the perspectives of drug users through their own voices Brief framing introductions to each article provide interconnective tissue guiding the student to the heart of what s important in the piece that follows Offers a balanced approach to various substances tobacco alcohol prescription drugs and illegal drugs Provides students with a realistic perspective on the extent of substance use in American society as well as a critical appreciation of the real versus imagined harms associated with use of various substances Reflecting on America Clare L. Boulanger,2017-07-05 Anthropologists travel back in time and across the globe to understand human culture but surprise there is culture right here in the United States This second edition of the best selling textbook and anthology *Reflecting on America* again focuses on how we can recognize the common cultural thread running through diverse American phenomena from heroin addiction and Big Business s efforts to shape the identities of children to Civil War reenactments and the popularity of burlesque in the Midwest In addition this second edition includes chapters written especially for this volume on striptease Burning Man The Big Bang Theory TV show and Groundhog Phil Written throughout with verve and quirky humor and offering Questions for discussion after every article this book is perfect for undergraduate classes in anthropology and American studies Drawing

***Recovering Histories*** Nicholas Bartlett,2020-10-20 Heroin first reached Gejiu a Chinese city in southern Yunnan known as Tin Capital in the 1980s Widespread use of the drug which for a short period became easier to buy than vegetables coincided with radical changes in the local economy caused by the marketization of the mining industry More than two decades later both the heroin epidemic and the mining boom are often discussed as recent history Middle aged long term heroin users however complain that they feel stuck in an earlier moment of the country's rapid reforms navigating a world that no longer resembles either the tightly knit Maoist work units of their childhood or the disorienting but opportunity filled chaos of their early careers Overcoming addiction in Gejiu has become inseparable from broader attempts to reimagine laboring lives in a rapidly shifting social world Drawing on more than eighteen months of fieldwork Nicholas Bartlett explores how individuals varying experiences of recovery highlight shared challenges of inhabiting China's contested present

Gardner, 2024-05-15 As Andrew M Gardner explains in The Fragmentary City in Qatar and elsewhere on the Arabian Peninsula nearly nine out of every ten residents are foreign noncitizens Many of these foreigners reside in the cities that have arisen in Qatar and neighboring states The book provides an overview of the gulf migration system with its diverse migrant experiences Gardner focuses on the ways that demography and global mobility have shaped the city of Doha and the urban characteristics of the Arabian Peninsula in general Building on those migrant experiences the book turns to the spatial politics of the modern Arabian city exploring who is placed where in the city and how this social landscape came into historical existence The author reflects on what we might learn from these cities and the societies that inhabit them In The Fragmentary City Andrew M Gardner frames the contemporary cities of the Arabian Peninsula not as poor imitations of Western urban modernity but instead as cities on the frontiers of a global neoliberal and increasingly urban future

**The Clinic and Elsewhere** Todd Meyers, 2013-05-15 Despite increasingly nuanced understandings of the neurobiology of addiction and a greater appreciation of the social and economic conditions that allow drug dependency to persist there remain many unknowns regarding the individual experience of substance abuse and its treatment In recent years novel pharmaceutical therapies have given rise to both new hopes for recovery and renewed fears about drug diversion and abuse In The Clinic and Elsewhere Todd Meyers looks at the problems of meaning caused by drug dependency and appraises the changing terms of medical intervention today By following a group of adolescents from the time they enter drug rehabilitation treatment through their reentry into the outside world the clinic their homes and neighborhoods and other institutional settings Meyers traces patterns of life that become mediated by pharmaceutical intervention His focus is not on the drug economy but rather on the therapeutic economy where new markets transactions of care and highly porous conceptions of success and failure come together to shape addiction and recovery The book is at once a meditative work of anthropology a demonstration of the theoretical and methodological limits of medical research and a forceful intervention into the philosophy of therapeutics at the level of the individual Watch the trailer [http://www.youtube.com/watch?v=Nffy21fxp8listUUge4MONgLFncQ1w1C\\_BnHcw](http://www.youtube.com/watch?v=Nffy21fxp8listUUge4MONgLFncQ1w1C_BnHcw) index 12 feature plc
