Addison describes how agriculture has been restructured in the post apartheid era through a delegation of authority from white landowners to black intermediaries He explains that while this labour regime enables the profitability of plantations it gives rise to a fragile moral economy in which perceptions of what is tolerable and what is exploitation frequently clash In this environment transactional sex and Christian worship emerge as important terrains of gendered and spiritual contestation where women and low ranking workers remain resilient in the face of unequal power relations Meanwhile plantations project an appearance of benevolent paternalism particularly in the narratives and self identity of white landowners This book reveals how in the everyday life of the community both the plantation and the compound where the workers live serve as central grounds for the negotiation of labour relations A groundbreaking study that uncovers how migrant plantation workers challenge their exploitation Chiefs of the Plantation is a rare glimpse into the often hidden world of labour struggle on contemporary plantations *Encyclopedia of Consumption and Waste* Carl A. Fire John R. Weir, J Derek Scasta, 2022-02 *Global Application of Prescribed Fire* provides a first hand perspective of the various methods and ways people around the world view and use prescribed fire. It covers the logistics constraints and social dynamics surrounding the intentional use and application of fire by humans and demonstrates how, why, when and where prescribed fire is used in different regions. Written by international experts, the book has four key objectives: explore new techniques, ideas and thoughts on how to apply prescribed fire from a global perspective; provide regional case studies covering issues that may constrain or enhance prescribed fire projects; stimulate cross cultural conversations about how fires function in ecosystems and relate prescribed fire to wildfire regimes with implications for protecting life and property as well as sustaining local fire cultures and unique fire dependent flora and fauna. *Global Application of Prescribed Fire* enhances our understanding and knowledge about the application of prescribed fire. This comprehensive book will provide fire practitioners, researchers, agencies and policymakers with key ecological and managerial insight of how prescribed fires are conducted around the globe.

Afro-Eurasia: Assessing Sustainability Ray C. Anderson, Louis Kotz, Stephen Morse, 2012-10-31 *Afro Eurasia Assessing Sustainability* focuses on the geographic area where humans originated and first began to make use of the natural world. Earth's largest landmass stretching from Portugal in the west across the steppes of Russia and south across Africa to the Cape of Good Hope. By examining the history of human expansion as well as 21st century pressures to address ecosystem damage across the region, international scholars and regional experts weave sustainability into core curricular subjects. The interdisciplinary coverage includes national and regional environmental histories as well as business and commerce, migration, educational institutions, law and government and the lifestyles of diverse populations.

Cape Town To Kilimanjaro Eric George De Jong, 2020-09-09 It is never too late to do something crazy, wonderful. Your mid life crisis doesn't have to be boring. Eric De Jong, aged 60, took up mountain biking. The next thing he was making pinky promises with a fellow rider to ride from Cape Town to the summit of Mount Kilimanjaro. Detouring off highways in search of roads less traveled, Cape Town to Kilimanjaro is about having fun, doing good and doing epic. Join Eric on his jaw dropping, foot cramping adventures through Africa and he'll make you laugh, cry and will hopefully inspire.

AIDS in the World II Global AIDS Policy Coalition, 1996 *AIDS in the World Vol 1* published in 1992 was the first full analysis of mankind's global confrontation with this disease. The AIDS scene, however, has been changing so rapidly that the need for a second volume was felt much earlier than expected. In *AIDS in the World II*, the authors extend the international comparisons from 38 countries to the entire world and show that the AIDS pandemic has become increasingly fragmented within the world population. They present data that takes the discussion beyond the current understanding of the vulnerability of nations and communities to the worldwide spread of HIV, engaging in a detailed exploration of the social strategies that have enabled individuals to avoid infection. Mann and Tarantola chart a course into the future based on an incisive investigation of the global pandemic and response, the crucial lessons learned from the first decade and their expert understanding of the scientific and social dimensions of the HIV

challenge The authors explain how the variety of reactions to the pandemic has contributed to a more advanced awareness of our vulnerability to HIV AIDS and offer a blueprint for an expanded global prevention effort Intended to serve the information needs of all professionals involved in AIDS research and care this volume s accessibility and clarity of writing make it highly suitable for the general reader as well
