Security Data Mining Data Engineering and Soft Computing **Behavioral Finance: The Second Generation** Meir
Statman,2019-12-02 Behavioral finance presented in this book is the second generation of behavioral finance The first
generation starting in the early 1980s largely accepted standard finance s notion of people s wants as rational wants
restricted to the utilitarian benefits of high returns and low risk That first generation commonly described people as
irrational succumbing to cognitive and emotional errors and misled on their way to their rational wants The second
generation describes people as normal It begins by acknowledging the full range of people s normal wants and their benefits
utilitarian expressive and emotional distinguishes normal wants from errors and offers guidance on using shortcuts and
avoiding errors on the way to satisfying normal wants People s normal wants include financial security nurturing children
and families gaining high social status and staying true to values People s normal wants even more than their cognitive and
emotional shortcuts and errors underlie answers to important questions of finance including saving and spending portfolio
construction asset pricing and market efficiency **World Development Report 2009** World Bank,2008-11-04 Rising
densities of human settlements migration and transport to reduce distances to market and specialization and trade facilitated
by fewer international divisions are central to economic development The transformations along these three dimensions
density distance and division are most noticeable in North America Western Europe and Japan but countries in Asia and

Eastern Europe are changing in ways similar in scope and speed World Development Report 2009 Reshaping Economic Geography concludes that these spatial transformations are essential and should be encouraged The conclusion is not without controversy Slum dwellers now number a billion but the rush to cities continues Globalization is believed to benefit many but not the billion people living in lagging areas of developing nations High poverty and mortality persist among the world's bottom billion while others grow wealthier and live longer lives Concern for these three billion often comes with the prescription that growth must be made spatially balanced The WDR has a different message economic growth is seldom balanced and efforts to spread it out prematurely will jeopardize progress The Report documents how production becomes more concentrated spatially as economies grow proposes economic integration as the principle for promoting successful spatial transformations revisits the debates on urbanization territorial development and regional integration and shows how today's developers can reshape economic geography

Industrialising Rural India Kenneth Bo Nielsen, Patrik Oskarsson, 2016-10-04 Rapid industrialisation is promoted by many as the most feasible way of rejuvenating the Indian economy and as a way of generating employment on a large scale At the same time the transfer of land from rural communities and indigenous groups for industrial parks mining or Special Economic Zones has emerged as perhaps the most explosive issue in India over the past decade Industrialising Rural India sheds light on crucial political and social dynamics that unfold today as India seeks to accelerate industrial growth The volume examines key aspects that are implicated in current processes of industrialisation in rural India including the evolution of industrial and related policies the contested role of land transfers dispossession and the destruction of the natural resource base more generally and the popular resistance against industrial projects extractive industries and Special Economic Zones Combining the work of scholars long established in their respective fields with the refreshing approach of younger scholars Industrialising Rural India seeks to chart new ways in the study of contemporary industrialisation and its associated challenges in India This cutting edge interdisciplinary work will be of interest to scholars working on industrial development and land questions in India and South Asia alongside those with an interest in sociology political science and development research

Who Decides Who Decides? John Spiers, Philip Booth, Neil Russel, 2016-07-12 This book makes the case for ordinary people to get the health and social care which the state has promised them for over 60 years but which has not been delivered What is the case for choice How can choice be made real for the individual What impact can genuine individually financially empowered choice have on effective funding purchasing delivery and outcomes How can a genuine market grow and thrive How can the quest for choice include the large numbers of NHS and social care staff on whom success depends The book urges individual financial empowerment through a life long health savings account for all NHS and social services

The Rise of Regional Authority Liesbet Hooghe, Gary Marks, Arjan Schakel, 2010-04-05 Most countries around the globe have one or two levels of regional or intermediate government yet we have little systematic idea of how much authority they wield or how this has

changed over time This book measures and explains the formal authority of intermediate or regional government in 42 advanced democracies including the 27 EU member states It tracks regional authority on an annual basis from 1950 to 2006 The measure reveals wide variation both cross sectionally and over time The authors examine four influences functional pressures democratization European integration and identity to explain regionalization over the past half century This unique and comprehensive volume will be a vital resource for students and scholars of comparative politics public administration and public management federalism democratization nationalism and multilevel governance Coping with Global Environmental Change, Disasters and Security Hans Günter Brauch,Úrsula Oswald Spring,Czeslaw Mesjasz,John Grin,Patricia Kameri-Mbote,Béchir Chourou,Pál Dunay,Joern Birkmann,2011-02-03 Coping with Global Environmental Change Disasters and Security Threats Challenges Vulnerabilities and Risks reviews conceptual debates and case studies focusing on disasters and security threats challenges vulnerabilities and risks in Europe the Mediterranean and other regions It discusses social science concepts of vulnerability and risks global regional and national security challenges global warming floods desertification and drought as environmental security challenges water and food security challenges and vulnerabilities vulnerability mapping of environmental security challenges and risks contributions of remote sensing to the recognition of security risks mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions **Multimedia Information Hiding Technologies and Methodologies for Controlling Data** Kondo, Kazuhiro,2012-10-31 The widespread use of high speed networks has made the global distribution of digital media contents readily available in an instant As a result data hiding was created in an attempt to control the distribution of these copies by verifying or tracking the media signals picked up from copyright information such as the author or distributor ID Multimedia Information Hiding Technologies and Methodologies for Controlling Data presents the latest methods and research results in the emerging field of Multimedia Information Hiding MIH This comprehensive collection is beneficial to all researchers and engineers working globally in this field and aims to inspire new graduate level students as they explore this promising field **Achieving Access** Joseph Harris,2017-09-15 At a time when the world s wealthiest nations struggle to make health care and medicine available to everyone why do resource constrained countries make costly commitments to universal health coverage and AIDS treatment after transitioning to democracy Joseph Harris explores the dynamics that made landmark policies possible in Thailand and Brazil but which have led to prolonged struggle and contestation in South Africa Drawing on firsthand accounts of the people wrestling with these issues Achieving Access documents efforts to institutionalize universal healthcare and expand access to life saving medicines in three major industrializing countries In comparing two separate but related policy areas Harris finds that democratization empowers elite professionals such as doctors and lawyers to advocate for universal health care and treatment for AIDS Harris s analysis is situated at the intersection of sociology political science and public health and will speak to scholars with interests in health policy comparative politics social policy and democracy

Pluralism and Democracy in India Wendy Doniger, Martha C. Nussbaum, 2015-02-09 Wendy Doniger and Martha Nussbaum bring together leading scholars from a wide array of disciplines to address a crucial question How does the world's most populous democracy survive repeated assaults on its pluralistic values India's stunning linguistic cultural and religious diversity has been supported since Independence by a political structure that emphasizes equal rights for all and protects liberties of religion and speech But a decent Constitution does not implement itself and challenges to these core values repeatedly arise most recently in the form of the Hindu Right movements of the twenty first century that threatened to destabilize the nation and upend its core values in the wake of a notorious pogrom in the state of Gujarat in which approximately 2000 Muslim civilians were killed Focusing on this time of tension and threat the essays in this volume consider how a pluralistic democracy managed to survive They examine the role of political parties and movements including the women's movement as well as the role of the arts the press the media and a historical legacy of pluralistic thought and critical argument Featuring essays from eminent scholars in history religious studies political science economics women's studies and media studies *Pluralism and Democracy in India* offers an urgently needed case study in democratic survival As Nehru said of India on the eve of Independence These dreams are for India but they are also for the world The analysis this volume offers illuminates not only the past and future of one nation but the prospects of democracy for all

thoughtful superbly researched and elegantly written study of one the most important pioneering Irish newspaper editors of the past 150 years Journal of British Studies As Irish republicans sought to rid the country of British rule and influence in the early twentieth century a clear delineation was made between what was authentically Irish and what was considered to be English influence As a member of the Anglo Irish elite who inhabited a precarious identity somewhere in between Irish Times editor R M Smyllie found himself having to navigate the painful experience of being made to feel an outsider in his own homeland In this engaging consideration of a bombastic outspoken and conflicted man Caleb Wood Richardson offers a way of seeing Smyllie as representative of the larger Anglo Irish experience Richardson explores Smyllie s experience in a German internment camp in World War I his foreign correspondence work for the Irish Times at the Paris Peace Conference and his guiding hand as an advocate for culture and intellectualism Smyllie had a direct influence on the careers of writers such as Patrick Kavanagh and Louis MacNeice and his surprising decision to include an Irish language column in the paper had an enormous impact on the career of novelist Flann O'Brien Smyllie like many of his class felt a strong political connection to England at the same time as he had enduring cultural dedications to Ireland How Smyllie and his generation navigated the collision of identities and allegiances helped to define what Ireland is today Describes the rich history of Irish Protestants who found themselves aliens in their own land Communication Booknotes Quarterly **Restorative Policing**

Kerry Clamp,Craig Paterson,2016-10-04 In the UK and elsewhere restorative justice and policing are core components of a range of university programmes however currently no such text exists on the intersection of these two areas of study This book draws together these diverse theoretical perspectives to provide an innovative knowledge rich text that is essential reading for all those engaged with the evolution and practice of restorative policing Restorative Policing surveys the twenty five year history of restorative policing practice during which its use and influence over criminal justice has slowly grown It then situates this experience within a criminological discussion about neo liberal responses to crime control There has been insufficient debate about how the concepts of restorative justice and policing sit alongside each other and how they may be connected or disconnected in theoretical and conceptual terms The book seeks to fill this gap through an exploration of concepts theory policy and practice In doing so the authors make a case for a more transformative vision of restorative

policing that can impact positively upon the shape and practice of policing and outline a framework for the implementation of such a strategy This pathbreaking book will be of interest to undergraduate and postgraduate students taking courses on restorative justice policing and crime control as well as professionals interested in the implementation of restorative practices in the police force *Emissions, Pollutants and Environmental Policy in China* Bo Miao, 2013-09-02 As the world's biggest polluter the environmental challenges that China faces in controlling its airborne emissions are crucial not only to its own population in terms of tackling the severe domestic air pollution but also to the planet as it faces calls from the international community to accept its responsibilities in cutting greenhouse gases Deteriorating air quality clearly shows that China's current environmental regime is unsuited to either tackle the rampant domestic air pollution or contribute fairly to international climate action As such this book explores the feasibility of applying a national emissions trading system to control multiple air pollutants in China It begins with an outline of the existing emissions management system and goes on to explore whether a national emissions trading system is a viable choice to combat China's conventional air pollutants To this end there is an in depth analysis of the two pilot sulphur dioxide emissions trading programs in Taiyuan and Jiangsu as well as an examination of emissions trading schemes in the US and EU Finally the book discusses the key design elements of a multi pollutant cap and trade scheme that addresses both conventional air pollutants and greenhouse gases This book will be of great interest to students and scholars interested in the fields of environmental studies Chinese politics and environmental law It will also be invaluable to policy makers in the field
