It is increasingly obvious that scripted literacy curricula and standardized tests fall short of meeting meaningful literacy goals and create culturally destructive learning spaces. *Fandoms in the Classroom* provides an alternative for educators looking to center passion in their classrooms by individualizing their literacy curricula by building from youth's interests. The book describes how educators in a wide range of secondary learning contexts can build curricula around students already present fandom interests to support literacy growth. This text supports educators in a range of learning contexts with step by step processes for building learning spaces that support navigation of fandom and disciplinary literacies with a particular focus on common obstacles and roadblocks that teachers have shared with us. It addresses how classrooms doing critical fandom work can address social justice issues across both fandom and disciplinary communities. This book covers relevant topics such as *Why Fandoms*. We introduce readers to the concept of fandoms and how engaging students' experiences in fandoms is not an extra or add on but instead crucial to flipping the script on literacy learning. *Bring Your Fandom to Class*, *Critically Putting Communities in Conversation*. The book discusses how to shift ideas of literacy learning contexts from teacher-centric instruction to a community learning model. *Fostering Engagement*, *Disciplinary Literacy*, *Literacy Across the Curriculum*, *Children's or Young Adult Literature*, *Writing in the Classroom*, *Digital Media Literacy*, *New and Digital Literacies*, *Teaching Diverse Learners*, *Theory to Practice*, *Language Literacy and Culture*, *Literacy Policy and Practice*, *Foundations of Literacy Education*, *Popular Culture in Literacy Classrooms*, *History of Literacy Practices*, *Reading and Language Arts*, *Critical Theory*. *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954*, 2004. *The Astronaut Maker* Michael Cassutt, 2018-08-01. One of the most elusive and controversial figures in NASA's history, George W. S. Abbey was called the Dark Lord, the Godfather, and UNO (short for unidentified NASA official). He was said to be secretive, despotic, a Space Age Machiavelli. Yet Abbey had more influence on human spaceflight than almost anyone in history. His story has never been told until now. *The Astronaut Maker* takes readers inside NASA to learn the real story of how Abbey rose to power from young pilot and wannabe astronaut to engineer, bureaucrat, and finally director of the Johnson Space Center. During a thirty-seven year career, mostly out of the spotlight, he oversaw the selection of every astronaut class from 1978 to 1987, deciding who got to fly and when. He was with the Apollo 1 astronauts the night before the fatal fire in January 1967. He was in mission control the night of the Apollo 13 accident and organized the recovery effort. Abbey also led NASA's recruitment of women and minorities as space shuttle astronauts and was responsible for hiring Sally Ride. Written by Michael Cassutt, the coauthor of the acclaimed astronaut memoirs *DEKE* and *We Have Captured*, and informed by countless hours of interviews with Abbey and his family, friends, adversaries, and former colleagues, *The Astronaut Maker* is the ultimate insider's account of ambition and power politics at NASA. **We Are Crew:** Ron Berger, Anne Vilen, Libby Woodfin, 2021-02-01. Crew is two things. It is a schoolwide culture that supports social and emotional wellness, character development, and academic and life success for students and staff. It is also a unique and transformational meeting structure.

Lives in Limbo Roberto G. Gonzales, 2016 Over two million of the nation's eleven million undocumented immigrants have lived in the United States since childhood Due to a broken immigration system they grow up to uncertain futures In Lives in Limbo Roberto G Gonzales introduces us to two groups the college goers like Ricardo whose good grades and strong network of community support propelled him into higher education only to land in a factory job a few years after

graduation and the early exiters like Gabriel who failed to make meaningful connections in high school and started navigating dead end jobs immigration checkpoints and a world narrowly circumscribed by legal limitations This ethnography asks why highly educated undocumented youth ultimately share similar work and life outcomes with their less educated peers even as higher education is touted as the path to integration and success in America Gonzales bookends his study with discussions of how the prospect of immigration reform especially the Deferred Action for Childhood Arrivals DACA program could impact the lives of these young Americans Provided by publisher *FCC Record* United States.
