Oecd Environmental Performance Reviews Greece 2009 Greek Version:

OECD Environmental Performance Reviews: Greece 2009 OECD,2010-03-15 OECD s comprehensive review of Greece s environmental programs and policies covering air and water management nature and biodiversity sustainable development the environment economy interface the environment social interface and international commitments **OECD Environmental Performance Reviews** ,2010 [OECD Environmental Performance Reviews: Greece 2009 \(Greek version\)](#) OECD,2010-06-29 *OECD Environmental Performance Reviews: Greece 2020* OECD,2020-10-05 Greece has undergone extensive reforms to cope with a deep recession over the past decade It has made progress in decoupling air pollutant emissions from GDP and improving the conservation status of natural habitats However the country faces challenges in managing waste and water and addressing air pollution

Compromise Planning : A Theoretical Approach from a Distant Corner of Europe Louis C. Wassenhoven,2022-03-28 The purpose of the book is to elaborate a planning theory which departs from the plethora of theories which reflect the conditions of developed countries of the North West The empirical material of this effort is derived from a country Greece which sits on the edge between North West and South East at the corner of Europe No doubt there is extensive international literature on planning theory in general from a bewildering variety of viewpoints The interested professional or student of urban and regional planning is certainly aware of the dizzying flood of books articles and research reports on planning theory and of their never ending borrowing of obscure concepts from more respectable scientific disciplines from mathematics to philosophy and from physics to economics human geography and sociology He or she probably observed that there is a growing interest in theoretical approaches from the viewpoint of the so called Global South The author of the present book has for many decades faced the impasse of attempting to transplant theories founded on the experience of the North West to countries with a totally different historical political social and geographical background He learned that the reality that planners face is unpredictable patchy and responsive to social processes frequently of a very pedestrian nature Planning strives to deal with private interests which planners are keen to envelop in a single public interest which is extremely hard to define The behaviour of the average citizen far from being that of the neoclassical model of the homo economicus is that of an individual a kind of homo individualis who interacts with the state and the public administration within a complex web of mutual dependence and negotiation The state and its administrative apparatus i e the key determinants and fixers of urban and regional planning policy bargain with this individual offer inducements exemptions derogations and privileges deviate unhesitatingly from their grand policy pronouncements but still defend the rationality and comprehensiveness of the planning system they have legislated and operationalized It is by and large a successful modus vivendi but only thanks to a constant practice of compromise Hence the term compromise planning which the author coined as an alternative to all the existing theoretical forms of planning This is the sort of planning and of the accompanying theory with which he deals in this book It is the outcome of experience and

knowledge accumulated in a long personal journey of academic teaching in England and Greece research and professional involvement

Water Resources Management Sustaining Socio-Economic Welfare Phoebe Koundouri,Nikos A. Papandreou,2013-11-29 The aim of this book is to offer a river basin management plan which is directly implementable and consistent with the European Union Water Framework Directive EU WFD The contributors who are leading world experts in their respective fields develop an integrated water resources management plan for the Asopos river basin in Greece which is economically efficient socially equitable and environmentally sustainable The program offers explicit technical and investment solutions socioeconomic and legal instruments and recommendations for institutional restructuring The introductory chapter describes the water situation in Greece and assesses the potential of timely implementation of the EU WFD Special emphasis is given to the cost recovery principle Chapter 2 introduces the case study area highlighting the particular pressures and impacts as well as the environmental functions and values of Asopos River and Oropos Lagoon Chapters 3 and 4 focus on the economic characterisation of Asopos River Basin in order to identify the economic sectors and social groups that will bear the cost and benefits of the implementation of the EU WFD In particular Chapter 3 presents the main water uses and pricing for water

supply in the industrial and the agricultural sectors Chapter 4 completes the baseline appraisal presenting the details of water use by the residential and touristic sectors The following chapters assess valuation and decision making tools from a range of perspectives including agricultural needs valuing the impacts of industrial activity the costs and benefits of environmental preservation and management The water resources management plan is presented in Chapter 9 the concluding chapter offers recommendations on institutional changes and presents the lessons learned as resources applicable to other river basins in Greece and elsewhere The book applies state of the art market and non market valuation methods to estimate water demands in the residential industrial agricultural tourism environmental and health sectors and to balance these over time and space with water supply Given the well known challenge of managing natural resources in a way that maximizes and sustains social welfare this book will provide an invaluable point of reference for applied researchers and policy makers working in water resources management
