Full Dissidence Howard Bryant, 2020-01-21 A bold and impassioned meditation on injustice in our country that punctures the illusion of a postracial America and reveals it as a place where authoritarianism looms large Whether the issues are protest labor patriotism or class division it is clear that professional sports are no longer simply fun and games Rather the industry is a hotbed of fractures and inequities that reflect and even drive some of the most divisive issues in our country The nine provocative and deeply personal essays in Full Dissidence confront the dangerous narratives that are shaping the current dialogue in sports and mainstream culture The book is a reflection on a culture where African Americans continue to navigate the sharp edges of whiteness as citizens who are always at risk of being told often directly from the White House to go back to where they came from The topics Howard Bryant takes on include the player owner relationship the militarization of sports the myth of integration the erasure of black identity as a condition of success and the kleptocracy that has forced America to ask itself if its beliefs of freedom and democracy are more than just words In a time when authoritarianism is creeping into our lives and is being embraced in our politics Full Dissidence will make us question the strength of the bonds we think we have with our fellow citizens and it shows us why we must break from the malignant behaviors that have become normalized in everyday life

Before the New Deal Elna C. Green,1999 The Civil War and Reconstruction changed the face of social welfare provision in the South as thousands of people received public assistance for the first time in their lives This book examines the history of southern social welfare institutions and policies in those formative years Ten original essays explore the local nature of welfare and the limited role of the state prior to the New Deal The contributors consider such factors as southern distinctiveness the impact of gender on policy and practice and ways in which welfare practices reinforced social hierarchies By examining the role of the South s unique political economy the impact of racism on social institutions and the region s experience of war this book makes it clear that the South s social welfare story is no mere carbon copy of the nation s

Nation, Society and the State Dr. Abraham Weizfeld, 2012-03-09 This work treats the European political philosophy that has engendered the Nation State concept considered to be the logical evolution of human history as a linear periodization into the Modern State This Modern State concept is treated as the end of history in liberal democratic theory in spite of it remaining a European phenomenon Where it has been imposed beyond the European political culture it has provoked a plague of civil wars and occupations such as in Palestine In Europe itself it has also resulted in such features as the Spanish Inquisition the latter day Spanish civil war and the fascist dictatorship that followed as well as the Nazi regime and its Holocaust in alliance with the various fascist allies seeking their own Nation State Various attempts have followed in Europe itself to overcome the Nation State itself by means of the European Union which sought to unite the Nation States with a federated effort to bring some stability to the economy and life of the region in light of the disastrous wars of the twentieth century The contradictions of the Nation State and Federalism become ever more apparent as the EU now descends into economic chaos This sub title invites a comparison and a contrast between the Jewish political culture and the Zionist movement One may consider political culture as encompassing Civil Society history religious theology and law comprising a collective consciousness this historical heritage forms a national identity which is currently oriented into nationalism by the State The endurance of national identity apart from the State and with the extinction of the State is projected as the basis of an independent Civil Society
