Punitive Damages Cass R. Sunstein, 2002-04-15 Over the past two decades the United States has seen a dramatic increase in the number and magnitude of punitive damages verdicts rendered by juries in civil trials Probably the most extraordinary example is the July 2000 award of 144.8 billion in the Florida class action lawsuit brought against cigarette manufacturers Or consider two recent verdicts against the auto manufacturer BMW in Alabama In identical cases argued in the same court before the same judge one jury awarded 4 million in punitive damages while the other awarded no punitive damages at all In cases involving accidents civil rights and the environment multimillion dollar punitive awards have been a subject of intense controversy But how do juries actually make decisions about punitive damages To find out the authors experts in psychology economics and the law present the results of controlled experiments with more than 600 mock juries involving the responses of more than 8,000 jury eligible citizens Although juries tended to agree in their moral judgments about the defendant's conduct they rendered erratic and unpredictable dollar awards The experiments also showed that instead of moderating juror verdicts the process of jury deliberation produced a striking severity shift toward ever higher awards Jurors also tended to ignore instructions from the judges were influenced by whatever amount the plaintiff happened to request showed hindsight bias believing that what happened should have been foreseen and penalized corporations that had based their decisions on careful cost benefit analyses While judges made many of the same errors they performed better in some areas suggesting that judges or other specialists may be better equipped than juries to decide punitive damages Using a wealth of new experimental data and offering a host of provocative findings this book documents a wide range of systematic biases in jury behavior It will be indispensable for anyone interested not only in punitive damages but also jury behavior psychology and how people think about punishment

just has to fend off all unsuitable offers until the dream job she's been promised actually comes through. Which should be anytime now. Really. Unfortunately, the mind-numbed bureaucrats at the Employment Security Office insist she make her required three job applications a week and settle for any reasonable offer. Or they're cutting off her unemployment. The thing is, their definition of reasonable is completely unreasonable. It's time to get creative with her applications. NOW. SHE'S DESPERATELY SEEKING GREATNESS. Convinced Leesa is failing to get a new job, her family sends her to a motivational workshop at the Northwest Institute where greatness begins to get some inspiration. And she finds it in the charismatic speaker, handsome eligible Ryne Garrett. At the workshop, she joins a wacky group of fellow jobseekers, the Job Camp Group. But just when everything is falling into place, things go horribly wrong. It will take a lot more than greatness and inspiration to get her through it.
