Reclaiming Basque Language Nation And Cultural Activism The Basque Series:

Reclaiming Basque Jacqueline Urla, 2012-03-31 The Basque language Euskara is one of Europe's most ancient tongues and a vital part of today's lively Basque culture. *Reclaiming Basque* examines the ideology, methods, and discourse of the Basque language revitalization movement over the course of the past century and the way this effort has unfolded alongside the simultaneous Basque nationalist struggle for autonomy. Jacqueline Urla employs extensive long-term fieldwork, interviews, and close examination of a vast range of documents in several media to uncover the strategies that have been used to preserve and revive Euskara and the various controversies that have arisen among Basque language advocates. *Basque Immigrants and Nevada's Sheep Industry* Iker Saitua, 2019-03-20 Basque Immigrants and Nevada's Sheep Industry is a rich and complex exploration of the history of Basque immigration to the rangelands of Nevada and the interior West. It looks critically at the Basque shepherders in the American West and more broadly at the modern history of American foreign relations with Spain after the Second World War. Between the 1880s and the 1950s, the western open range sheep industry was the original economic attraction for Basque immigrants. This engaging study tracks the development of the Basque presence in the American West, providing deep detail about the shepherders' history, native and local culture, the challenges they faced, and the changing conditions under which the Basques lived and worked. Saitua also shows how Basque immigrant shepherders went from being a marginalized labor group to a desirable, high-priced workforce in response to the constant demand for their labor power. As the twentieth century progressed, the geopolitical tide in America began to change. In 1924, the Restrictive Immigration Act resulted in a truncated labor supply from the Basque Country in Spain. During the Great Depression and the Second World War, the labor shortage became acute. In response, Senator Patrick McCarran from Nevada lobbied on behalf of his wool-growing constituency to open immigration doors for Basques, the most desirable laborers for tending sheep in remote places. Subsequently, Cold War international tensions offered opportunities for a reconciliation between the United States and Francisco Franco, despite Spain's previous sympathy with the Axis powers. This fresh portrayal shows how Basque immigrants became the backbone of the sheep industry in Nevada. It also contributes to a wider understanding of the significance of Basque immigration by exploring the role of Basque agricultural labor in the United States, the economic interests of Western ranchers, and McCarran's diplomacy as catalysts that eventually helped bring Spain into the orbit of western democracies. *Basques and Vicuñas at the Mouth of Hell* Kris Lane, 2024-11-07 In June 1622, the silver mining metropolis of Potosí, Bolivia, erupted in gangland violence, only halted three years later by a viceroy's blanket amnesty. Basque immigrants were at the center of the controversy, squaring off against nearly a dozen other nations known collectively as the *Vicuñas*. At stake were the world's richest silver mines, a means to wealth and power in the Americas, Europe, and beyond. As mines flooded and Indigenous workers died or fled, the city descended into a maelstrom of swordfights, gun battles, ambushes, sniper attacks, and summary executions. Though its roots were economic, the Basque *Vicuña* conflict strained

the sinews of Habsburg global governance even as it exposed festering local tensions only some of which were unique to Potosí. This rich collection of original sources—all of them archival documents housed in Bolivia, Spain, the United Kingdom, and the United States—consists of contemporary eyewitness accounts from several perspectives, allowing readers to play historian. All sources have been expertly translated and carefully annotated in a manner that will engage students and scholars alike. *Basques and Vicu as at the Mouth of Hell* includes an extensive introduction, seven vital documents in translation, and appendices on everyday life in 1620s Potosí and on the historiography of this watershed episode of colonial violence.

New Geographies of Language Rhys Jones, Huw Lewis, 2018-11-19. This book develops a novel approach to the study of language, bringing it into dialogue with the latest geographical concepts and concerns, and provides a comprehensive account of the geography of Welsh language, analysing policy, development, language use, ability, and shift. The authors examine, in particular, the different ways in which languages can be mapped, how geographical insights can be used to develop understandings of language use, the value of assemblage theory as a way of interpreting the social, technical, and spatial aspects of language policy, development, and the geographies that characterise institutional engagements with languages. This book will set a research agenda for the geographical study of language, developing a conceptual framework that will offer fresh insights to researchers in the fields of Applied Linguistics, Sociolinguistics, Minority Languages, Geolinguistics, and Public Policy.

Remaking Kichwa Michael Wroblewski, 2021-01-28. Investigating the efforts of the Kichwa of Tena, Ecuador, to reverse language shift to Spanish, this book examines the ways in which Indigenous language can be revitalized and how creative bilingual forms of discourse can reshape the identities and futures of local populations. Based on deep ethnographic fieldwork among urban, periurban, and rural Indigenous Kichwa communities, Michael Wroblewski explores adaptations to culture, contact, language revitalization, and political mobilization through discourse. Expanding the ethnographic picture of native Amazonians and their traditional discourse practices, this book focuses attention on Kichwa's diverse engagements with rural and urban ways of living, local and global ways of speaking, and Indigenous and dominant intellectual traditions. Wroblewski reveals the composite nature of Indigenous words and worlds through conversational interviews, oral history narratives, political speechmaking, and urban performance media, showing how discourse is a critical focal point for studying cultural adaptation. Highlighting how Kichwa assert autonomy through creative forms of self-representation, *Remaking Kichwa* moves the study of Indigenous language into the globalized era and offers innovative reconsiderations of Indigeneity, discourse, and identity.

Sustainable Food Networks: Chains of Values and Food Transitions Carolina Yacamán-Ochoa, José Luis Sánchez-Hernández, Javier Sanz-Cañada, 2025-06-12. Sustainable Food Networks (SFNs) are emerging as pivotal value chains for agroecological and food transitions in both urban and rural territories. These networks aim to create a healthy, fair, localized, and inclusive food supply model, standing in contrast to the dominant corporate food system characterized by long-haul, complex, and fragile supply chains. Despite their potential, SFNs such as community-supported agriculture, farmers'

markets and urban agriculture have not been thoroughly examined through the lens of economic geography and related interdisciplinary perspectives. The current globalized food system is fraught with economic, social, and environmental issues, including the marginalization of family farming, environmental degradation, and the loss of local knowledge and biodiversity. SFNs offer a critical alternative by emphasizing small batch production, environmental sustainability, and social equity, yet there remains a significant gap in understanding their full impact and potential. This research topic aims to collate comprehensive research on Sustainable Food Networks (SFNs) with specific objectives: identifying various SFN initiatives across different territories; evaluating their spatial dimensions in global contexts; and assessing policies that can enhance the social, economic, and environmental sustainability of food value chains. Key questions include: how alternative values are propagated within SFNs; the critical spatial nodes for these values; the role of urban and peri-urban agriculture; and the interplay between territorial conditions and SFN performance. Additionally, the research seeks to understand how SFNs compete with hegemonic value chains and the potential role of public policy in strengthening these networks. To gather further insights into the complexities and potentials of SFNs, we welcome articles addressing, but not limited to, the following themes: The propagation and transfer of alternative values within SFNs; Identification of critical spatial nodes for the reproduction of these values; Roles of urban and peri-urban agriculture in SFNs; Relationships between territorial conditions, governance, and SFN performance; Strategies employed by SFNs to tackle competition from corporate value chains; The impact of SFNs on the surge of local organic and healthy food outlets; The role of public policy in supporting and strengthening SFNs.

De-Pathologizing Resistance Dimitrios Theodossopoulos, 2017-10-02 In a time of renewed interest in insurrectionary movements, urban protest, and anti-austerity indignation, the idea of resistance is regaining its relevance in social theory. *De-Pathologizing Resistance* re-examines resistance as a concept that can aid social analysis, highlighting the dangers of pathologising resistance as illogical and abnormal, or exoticising it in romanticised but patronising terms. Taking a de-pathologising and de-exoticising perspective, this book brings together insights from older and newer studies, the intellectual biographies of its contributing authors, and case studies of resistance in diverse settings such as Egypt, Greece, Israel, and Mexico. From feminist studies to plaza occupations and anti-systemic uprisings, there is an emerging need to connect the analysis of contemporary protest movements under a broader theoretical re-examination. The idea of resistance, with all of its contradictions and its dynamism, provides such a challenging opportunity. This book was originally published as a special issue of *History and Anthropology*.

The Oxford Handbook of Language and Society Ofelia García, Nelson Flores (Linguist), Massimiliano Spotti, 2017 This book challenges basic concepts that have informed the study of sociolinguistics. It proposes a critical poststructuralist perspective that examines the socio-historical context that led to the emergence of dominant sociolinguistic concepts and develops new theoretical and methodological tools that challenge these dominant concepts.

Voice and Nation in Plurinational Bolivia Karl Swinehart, 2024-05-16 This book offers ethnographic accounts of

Aymara language media activism in Bolivia during the presidency of Evo Morales 2006-2019 It draws on research conducted among Aymara language radio broadcasters hip hop artists and community members during a period of radical social change and Indigenous political resurgence pachakuti in South America's most Indigenous republic The Plurinational Republic of Bolivia counts Aymara among its official languages but Aymara's social status and transmission to newer generations raise concerns about whether despite being one of the most widely spoken Indigenous languages of the Americas the threat of language obsolescence persists This ethnographic account of Indigenous language activism shows how Aymara media and cultural workers combat this threat by making the language audible in diverse corners of Aymara life and examines the role Indigenous multilingualism plays in Bolivian politics Through interviews and analysis of Aymara media texts this study shows how language professionals determine how the voice of the people should sound By introducing neologisms and archaisms to avoid mixing Aymara with Spanish Aymara language professionals disseminate a register of dehispanicized Aymara over the airwaves The study reveals how these language professionals approach cultivating Aymara as more than a question of linguistic competence but also of political commitment and anti racist practice Organized into two sections one on radio and one on song and including clear explanations and illustrations of key concepts in linguistic anthropology this book listens to Aymara language advocacy from devout Catholics union militants and hip hop artists and fans who hear in their language both the past and the future of Bolivia's Aymaras

Identity Destabilised Thomas Hylland Eriksen, Elisabeth Schober, 2016-10-20 The world is overheated Too full and too fast out of sync contradiction ridden and unequal It is the age of the Anthropocene of humanity's indelible mark upon the planet In short it is globalisation but not as we know it This collection explores social identities in today's overheated world seen from an anthropological perspective The focus is on contradictions tensions and paradoxes How can an identity be stable if its border is constantly shifting How can a community survive if it is incorporated into a huge entity How does belonging work in new cities And what can indigenous peoples do to retain a sense of self in a fast moving neoliberal world

Ethnographically rich and diverse in its scope *Identity Destabilised* contains chapters from many parts of the world including the Philippines Israel Australia the Cape Verde Islands and Afghanistan The authors investigate how identity changes in response to contemporary forces from rapid industrialisation the enforced return of migrants and the silencing of indigenous groups to sudden population growth in boomtowns and the touristification of local culture

Looking Like a Language, Sounding Like a Race Jonathan Rosa, 2019 *Looking like a Language Sounding like a Race* examines the emergence of linguistic and ethnoracial categories in the context of Latinidad The book draws from more than twenty four months of ethnographic and sociolinguistic fieldwork in a Chicago public school whose student body is more than 90% Mexican and Puerto Rican to analyze the racialization of language and its relationship to issues of power and national identity It focuses specifically on youth socialization to U S Latinidad as a contemporary site of political anxiety raciolinguistic transformation and urban inequity Jonathan Rosa's account studies the fashioning of Latinidad in Chicago's highly segregated Near Northwest Side he links public discourse concerning the rising prominence of U S Latinidad to the institutional management and experience of raciolinguistic identities there Anxieties surrounding Latinx identities push administrators to transform at risk Mexican and Puerto Rican students into young Latino professionals This institutional effort which requires students to learn to be and importantly sound like themselves in highly studied ways reveals administrators' attempts to navigate a precarious urban terrain in a city grappling with some of the nation's highest youth homicide dropout and teen pregnancy rates Rosa explores the ingenuity of his research participants' responses to these forms of marginalization through the contestation of political ethnoracial and linguistic borders

Language and Neoliberal Governmentality Luisa Martín Rojo, Alfonso Del Percio, 2019-06-26 Against a background of the ongoing crisis of global capitalism and the fracturing of the neoliberal project this book provides a detailed account of the ways in which language is profoundly imbricated in the neoliberalising of the fabric of social life With chapters from a cast list of international scholars covering topics such as the commodification of education and language unemployment and the governmentality of the self and discussion chapters from Monica Heller and Jackie Urla bringing the various strands together the book ultimately helps us to understand how language is part of political economy and the everyday making and remaking of society and individuals It provides both a theoretical framework and a significant methodological tool box to critically detect understand and resist the impact of neoliberalism on everyday social spheres particularly in relation to language Presenting richly empirical studies that expand our understanding of how neoliberalism as a regime of truth and as a practice of governance performs within the terrain of language this book is an essential resource for researchers and graduate students in English language sociolinguistics applied linguistics linguistic anthropology and related areas

Critical Perspectives on Linguistic Fixity and Fluidity Jürgen Jaspers, Lian Malai Madsen, 2019-01-15 This volume offers a critical perspective on current views on linguistic fixity and fluidity in sociolinguistics and highlights empirical accounts alternative to prevailing trends in the field Featuring

accounts from a broad range of regional contexts the collection takes stock of such terms as polylingualism metrolingualism and translanguaging to question perceptions around multilingual and monolingual language use The book critiques the status of fluid language use as a more natural language practice and in turn its greater potential for corresponding social transformation demonstrating the value of linguistic fixity and the continuous debate between fixity and fluidity in multilingual speakers lives In providing these accounts the book seeks not to advocate for linguistic fixity or fluidity but to argue that sociolinguists pay close attention to the way both types of linguistic practice open up or close down avenues for social transformation This collection is a key reading for graduate students and scholars in sociolinguistics multilingualism and linguistic anthropology
