The D-Word: Perspectives on Democracy in Tumultuous Times Christi van der Westhuizen, Siphiwe Dube, Zwelethu Jolobe, 2024-03-12. This curated collection engages international debates about the current challenges facing democracy. Given the proliferation of crisis literature on democracy, this volume finds its distinctive niche in presenting perspectives from the global margins that bridge disciplinary, sectoral, national and conceptual divides. South Africans enter into conversation with scholars and activists from elsewhere in the Global South including the Arab world and the rest of Africa and from the European periphery. Insights on democracy are offered from a diversity of perspectives and voices spanning philosophy, socio-legal and political studies, sociology, public administration and queer and gender studies and activism. The book will be of interest to academics, activists, policymakers, development planners and the general public. The D-Word is a timely contribution addressing burning questions and current contestations about the relevance of democracy due to systemic flaws in how it is constituted, received, practised and even imagined and can the democratic project be salvaged. The book's unique approach brings a variety of lenses to bear on the prospects for democracy. The critical reflections it contains make for an enriching broad canvas of ideas. Professor Sandy Africa, University of Pretoria.

Language Arts, 1984. **Pedagogies and Curriculums to (Re)imagine Public Education** Encarna Rodríguez, 2015-06-04. This book discusses current market-based educational discourses and how they have undermined the notion of the public in public education by allowing private visions of education to define the public democratic imagination. Against this discouraging background, this text embraces Freire's understanding of hope as an ontological need and calls for finding new public grounds for our public imagination. It further articulates Freire's mandate to unveil historically concrete practices to sustain democratic educational visions no matter how difficult this task may be by 1) presenting an in-depth description of the pedagogies and curriculums of eleven schools across historical and geographical locations that have worked or are still working with disenfranchised communities and that have publicly hoped for a better future for their students and by 2) reflecting on how the stories of these schools offer us new opportunities to rethink our own pedagogical commitment to public visions of education. To promote this reflection, this book offers the notion of publicly imagined public education as a conceptual tool to help understand the historical and discursive specificity of schools' hopes and to re-claim public schools as legitimate sites of public imagination. Samuel Johnson Lawrence Lipking, 2009-07-01. He was a servant to the public, a writer for hire. He was a hero, an author adding to the glory of his nation. But can a writer be both hack and hero? The career of Samuel Johnson recounted here by Lawrence Lipking proves that the two can be one. And it further proves in its enduring interest for readers that academic fashions today may be a bit hasty in pronouncing the death of the author. A book about the life of an author about how an author is made, not born. Lipking's Samuel Johnson is the story of the man as he

lived and lives in his work Tracing Johnson's rocky climb from anonymity to fame in the course of which he came to stand for both the greatness of English literature and the good sense of the common reader the book shows how this life transformed the very nature of authorship Beginning with the defiant letter to Chesterfield that made Johnson a celebrity Samuel Johnson offers fresh readings of all the writer's major works viewed through the lens of two ongoing preoccupations the urge to do great deeds and the sense that bold expectations are doomed to disappointment Johnson steers between the twin perils of ambition and despondency Mounting a challenge to the emerging industry that glorified and capitalized on Shakespeare he stresses instead the playwright's power to cure the illusions of everyday life All Johnson's works reveal his extraordinary sympathy with ordinary people In his groundbreaking Dictionary in his poems and essays and in *The Lives of the English Poets* we see Johnson becoming the key figure in the culture of literacy that reaches from his day to our own

Liberating the Economy from the Market Leonardo Lavanderos, Alejandro Malpartida, 2025-04-24 Authors Leonardo Lavanderos and Alejandro Malpartida dismantle the ideological scaffolding of contemporary capitalism exposing its structural contradictions and radical disconnection from the conditions that sustain life This book is not merely a critique it deconstructs and reconfigures proposing an economy that transcends the reductionist mechanics of supply and demand in order to restore the essential link between culture and nature The authors discuss how conventional economics obsessed with abstract metrics and empty indicators erased the relational and ecological dimensions that underpin the viability of both human and non human communities The book is an intellectual rebuff to those who have turned the economy into a machine of entropy uprooting and devastation Drawing from the concept of ecopoiesis the authors call for a paradigmatic shift toward a regenerative relational and systemically sustainable economy An essential text for students and researchers in economics sustainability sociology and societal futures

Emerging Prophet Kyle A. Roberts, 2013-04-23 Kierkegaard was a prophet who critiqued Christendom the perversion of authentic New Testament Christianity into the institutionalized materialistic triumphalist and flabby religion of modernism Emergent Christianity is attempting to carve out a more authentic way of being Christian and doing church within and beyond the ineffectual institutionalized church of modernity In many ways Kierkegaard's critiques concerns and goals overlap with emergent Christianity and the emerging church For the first time this book brings Kierkegaard into a dialogue with various postmodern forms of Christianity on topics like revelation and the Bible the atonement and moralism and the church as an apologetic of witness In conversation with postmodern philosophers contemporary theologians and emergent leaders Kierkegaard is offered as a prophetic voice for those who are carving out an alternative expression of the New Testament today and attempting to follow Christ through works of love
