introducing a series of detailed criteria for novelists of every level and genre to refer to while writing regardless of their preferred writing method Beginning with the broadest part of the story the early checklists help writers to ensure that their novel is based on a premise rather than an idea and gradually hones in on other elements to keep the story moving forward including dramatic tension narrative strategy scene construction Readers won't know or care about the process But what Brooks offers here is a chance for readers to make the most of whichever process they choose and in doing so cut years off their learning curve Catalog of Copyright Entries.
