*Experience: Theory Practice Research* Lawrence R. Allen, Robert J. Barcelona, 2011-07-26 It s not all fun and games A growing body of research suggests that recreation activities can be powerful development contexts when they are properly framed and intentionally designed This volume highlights much of that research and the articles that follow provide ample evidence that well framed recreation activities and contexts can provide a range of positive developmental outcomes Editors Lawrence R Allen and Robert J Barcelona draw on their own work in human and youth development and have assembled contributing authors who explore the important of meaningful recreation and leisure experiences in the lives of youth and the value of recreation from a developmental perspective Chapters focus on the developmental potential of specific recreation contexts and settings and provide research and evidence based strategies outlining the activities that best promote positive youth development Finally the volume demonstrates how recreation is being used to strengthen individual and community assets and its role as a contributor in addressing pressing social issues This is the 130th volume of New Directions for Youth Development the Jossey Bass quarterly report series dedicated to bringing together everyone concerned with helping young people including scholars practitioners and people from different disciplines and professions The result is a unique resource presenting thoughtful multi faceted approaches to helping our youth develop into responsible stable well rounded citizens

*Youth Development in Community Recreation Programs* Cass A. Morgan, 2012      **Youth Development and Physical Activity** Donald R. Hellison, 2000 Professionals in educational and recreational settings work hard to understand and address the problems faced by underserved youth Yet the dedicated people in these institutions are often limited in what they can achieve because they tend to remain within the confines of their own work environment rather than sharing their expertise and resources Instead of accepting this as an unfortunate fact of life the coauthors of this book see the situation as an opportunity to develop an approach in which the whole is far greater than the sum of its parts In *Youth Development and Physical Activity Linking Universities and Communities* they draw on their considerable teaching experience to present innovative new ways to serve underserved youth The book describes practical strategies for breaking down the walls between universities and communities so they can combine their strengths to improve young people's lives You'll find a wealth of guidelines for creating physical activity programs that instill a sense of social and personal responsibility including numerous real life examples of successful programs *Youth Development and Physical Activity Linking Universities and Communities* is divided into four parts each enriched with the colorful voices and stories of real kids and youth leaders who have put these ideas into practice Part I provides a sobering look at the challenges today's young people face and introduces positive ways to improve physical activity youth programs so they're meaningful in today's world In Part II you'll learn how to move from how it is to how it could be using a breakthrough model for working with kids and building programs Here the book provides a road map that shows the way for university students and faculty to connect with youth in their communities through service learning internships and other outreach programs Part III spells out how to develop a variety of proven youth physical activity programs from adventure experiences and Coaching Clubs to mentoring and teen parent programs You'll find many great ideas that work in virtually any setting including public schools alternative schools recreation programs youth service groups and social agencies Part IV provides a variety of helpful tools for evaluating programs and improving outcomes as well as insights on how professionals can develop the skills they need to respond to the changing demands on youth leaders Written by professionals with a combined 70 years of experience working with underserved youth this book is must reading for both professionals and organizations practicing in a world where youth too often slip through the cracks It provides a clear and hopeful framework for improving the lives of kids as well as the communities in which they live

Crompton, 2002 Examines programs in which recreation is not an end in itself but an attempt to alleviate social problems among young people      **Recreational Sport** Robert J. Barcelona, Mary Sara Wells, Skye Arthur-Banning, 2015-10-30 There are more opportunities than ever for

employment in recreational sport which means the need to prepare students with a solid foundation of the design delivery and management of recreational sport has never been more critical. Recreational Sport is designed precisely with that need in mind. This text provides a contemporary perspective of recreational sport management offering a comprehensive picture of recreational sport management for people in or entering all sectors of recreation and leisure including public nonprofit private and commercial. We saw a need for broad based recreational sport programming that reflects the myriad of recreational sport activities and opportunities that are out there, says lead author Robert Barcelona. To meet those increased needs and interests, people need to have an array of programming and management skills in recreational sport. Barcelona and his coauthors help readers gain those skills in part by simplifying the complicated process of designing and delivering programs in various settings in recreation and leisure services. They present a macrocosm view of recreational sport in communities, a view that reflects the most current application based research in the field. Their text places recreational sport squarely in the middle of the recreation and leisure curriculum and is supported by the recreational sport core competencies as developed by Barcelona himself. Those competencies are based on what recreational sport managers need to know and be able to do to grow and succeed in the profession and they connect with the NIRSA recreational sport competencies developed in 2013. In addition, Recreational Sport offers the following: Coverage for all age groups and sectors in a range of settings and contexts for recreational sport. International perspectives to offer students great insights into career opportunities. The latest theory research and real world approaches to help both students and professionals who program sports. Case studies of real world issues in recreational sport and examples of theory to practice applications. The text comes with an array of online ancillaries that will prove invaluable to both instructors and students. The instructor guide supports and extends the chapter content and offers numerous ideas for learning activities, projects and topics for papers. It also supplies chapter summaries, glossary terms and links to websites that contain information for both instructors and students. The test package has multiple choice, true or false, matching and short answer questions that can interface with learning management systems and the presentation package offers a visual overview of the material to help students retain the concepts. In teaching recreational sport for many years, I know that students first need to grasp the big picture of recreational sports, Barcelona says. We deliver that big picture in addition to information on design, delivery and management that every student needs to know to succeed regardless of what recreational sport organization he or she is a part of. That big picture element along with the cutting edge information on program design, delivery and management sets this book apart. In the three parts of the book, students will be able to do the following: Be grounded in the philosophical concepts that define the field. Learn about the core competencies they need to know to deliver successful programs and events. Gain insights about the settings and contexts where recreational sport happens and learn about key ideas, issues and career opportunities in the field. Recreational Sport is a textbook critical to students' future success in recreational sport management offering the big picture.

Rose, 2021-11-24 This book explores entanglements between politics and leisure ranging from the electorate's concerns with public recreation resources to the presence of politics in casual conversation and to the use of leisure as a means of preserving racial hierarchies in society In noting the contributions of past scholarship it also points toward a trend of increasingly political leisure research where research helps to unpack the multiple ways in which power suffuses the experience of leisure A contrast between being political on one hand and the tribal politicization that characterizes much of contemporary social life on the other hand demonstrates that scholars and educators can and should be engaged in politically oriented scholarship while also building a more diverse and intellectually productive academy This edited volume will be of great interest to researchers and scholars interested in race power polarization and the interrelationship between politics and leisure The chapters in this book were originally published as a special issue of the
